GOVERNMENT OPERATIONS COMMITTEE REPORT relative to proposed Assignment and Assumption Agreement for City-owned commercial leases at 10801/10823 San Fernando Road and 13273/13277 Van Nuys Boulevard for the potential Pacoima Lifestyle Center project.

Recommendations for Council action:

1. DETERMINE that the City should assume the 11 active leases at the City-Owned property located at located at 10801 and 10823 San Fernando Road, and 13273 and 13277 Van Nuys Boulevard, Los Angeles, CA 91331, Assessor's Parcel Numbers: 2619-017-001, 2619-017-002, 2619-017-004, 2619-017-024, 2619-017-026, and 2619-017-030, as listed in Exhibit B in the December 18, 2025 Municipal Facilities Committee (MFC) report, attached to the Council File.
2. FIND that, pursuant to Charter Section 371(e)(10) and Los Angeles Administrative Code Section 10.15(a)(10) that the use of competitive bidding for these leases would be impractical and undesirable in that it would result in the existing tenants being evicted from the property.
3. APPROVE and AUTHORIZE the execution of the Assignment and Assumption Agreement, prepared by the City Attorney, as detailed in Exhibit B in the December 18, 2025 MFC report, attached to the Council File.
4. AUTHORIZE the Acting General Manager, Economic and Workforce Development Department, or designee, to make technical corrections or adjustments that may be required and are consistent with these City Council and Mayoral actions.

Fiscal Impact Statement:

The MFC reports that there is no impact to the General Fund as a result of the recommendations contained in the December 18, 2025 MFC report, attached to the Council File. The EWDD will fund repairs, Americans with Disabilities Act compliance, and future tenant relocation benefits through the lease revenue.

Community Impact Statement: None submitted.

GOVERNMENT OPERATIONS COMMITTEE REPORT relative to the Fiscal Year 2025-26 Second Quarterly Status Report for the Citywide Leasing Program.

Recommendation for Council action, SUBJECT TO THE APPROVAL OF THE MAYOR:

AUTHORIZE the Controller to:

- a. Transfer and reprogram \$1,300,000 from the Leasing Fund No. 100/63, Account No. 000024, General Fund Leasing Account to a newly established account within the Capital and Technology Improvement Expenditure Program No. 100/54, titled "Garland Relocation."
- b. Transfer and reprogram \$289,362 from the Leasing Fund No. 100/63, Account No. 000024, General Fund Leasing Account to the General Services Department Fund No. 100/40, Account No. 003040, Contractual Services to fund security services at the Seventh Street Yard.

Fiscal Impact Statement:

The Municipal Facilities Committee (MFC) reports that There is no impact to the General Fund for the Citywide Leasing Program. The projected surplus will be used for unfunded costs associated with the relocation of employees from the Garland Building and unanticipated security costs.

Financial Policies Statement:

The MFC reports that the recommendation contained in the December 18, 2025 MFC report, attached to the Council File, complies with the City's Financial Policies in that, to the extent possible, changes to budget appropriations during the fiscal year shall be limited and subject to the review and approval of the Mayor and Council.

The Police Department is in the process of transitioning from a conventional radio communication system to a modern trunked communication system in order to enhance operational efficiency, communication reliability, and interagency coordination. Unlike conventional radio systems that rely on fixed channels and are susceptible to congestion, trunked communication systems utilize shared channels to allow for more efficient use of radio spectrum, prioritization of critical communications, and improved performance during high-demand situations.

Radio calibration is a critical and required first step in implementing the trunked communication system, and all approximately 14,000 Department-issued handheld radios must be properly calibrated prior to the system becoming operational. Acquiring in-house radio calibration equipment will allow the Police Department to perform this work internally, increasing efficiency, reducing reliance on external vendors, and ensuring timely system readiness.

These enhanced communication capabilities are particularly essential to support public safety operations during large-scale and high-volume events, including major international events that generate unpredictable communication demands.

I THEREFORE MOVE that the Council adopt the following actions:

1. Authorize the transfer of \$191,408 from the Contractual Services Account (003040), Work Order Number 0790502X (Voice Radio Switch Extended Maintenance), to the Furniture, Office, and Technical Equipment Account (007300) for the purpose of purchasing radio calibration equipment required for the Police Department to conduct radio calibration in-house in support of the transition to a trunked communication system.
2. Authorize the Police Department to make any corrections, clarifications or revisions to the above fund transfer instructions, including any new instructions, in order to effectuate the intent of this Motion, and including any corrections and changes to fund or account numbers; said corrections / clarifications / changes may be made orally, electronically or by any other means.

The Venice Beach 2022-2026 Business Improvement District (BID) was established on August 4, 2021 by the Council's adoption of Ordinance No. 187130 and is currently in the process of renewing. The BID area generally includes all non-residentially-zoned properties between the Los Angeles/Santa Monica cities boundary, the Pacific Ocean on the west, and Venice Boulevard on the south. The eastern boundary is irregular, but is primarily determined by where commercially and industrially and open space-zoned properties end and residential zoning begins. To renew the BID, proponents must follow the procedures for establishment as provided by State law and requires the approval of a Management Plan and Engineer's Report.

The BID has brought many benefits to the Venice Beach community, including economic development and neighborhood beautification. The Council should authorize the City Clerk to provide the necessary assistance for the renewal of the BID. Any additional funds required for this effort would be provided by the BID.

I THEREFORE MOVE that the City Council instruct the City Clerk to provide the necessary assistance for the renewal of the Venice Beach Business Improvement District.

I FURTHER MOVE that the City Clerk be authorized to make any changes or adjustments to the above instruction in order to effectuate the intent of this Motion.

For Tuesday, February 17

MOTION

Large public demonstrations occur regularly in the City of Los Angeles and require coordinated planning, clear communication, and thoughtful crowd-management strategies to ensure public safety while protecting the constitutional right to peaceful assembly. In recent weeks, federal immigration enforcement actions have contributed to heightened activity in and around the civic center area, generating public discussion regarding the tactics used to manage crowds, deploy resources, and coordinate with partner agencies during dynamic situations.

The Los Angeles Police Department (LAPD) is frequently tasked with responding to complex and rapidly evolving demonstrations that can involve participants of all ages, shifting routes, and heightened public attention. Ensuring that the Department's crowd-control tactics, training, and communication protocols reflect best practices in de-escalation and proportional response is essential to maintaining public trust and supporting officers in the field. Transparency regarding these strategies can help the City better understand how decisions are made and where improvements or additional resources may be needed.

As demonstrations continue to take place across Los Angeles, it is important for the City Council and the public to receive a comprehensive overview of LAPD's general crowd-management approach, including how tactics are selected, how officers are trained, and how coordination occurs with other agencies.

I THEREFORE MOVE that the Council DIRECT the Chief of Police to appear before the City Council and report on LAPD crowd-control and crowd-management tactics used during public demonstrations citywide, including:

- Current policies, training, and supervision related to crowd management and public assembly events;
- The use of skirmish lines, dispersal orders, crowd-control formations, and enforcement actions during demonstrations;
- Communication and de-escalation strategies used to engage with demonstrators and the public;
- Protocols governing coordination with federal, state, or other outside law enforcement agencies during demonstrations; and
- Departmental guidelines and training related to youth-led demonstrations and interactions with minors when they are present at public demonstrations.

I FURTHER MOVE that the Council REQUEST the Police Commission, with the assistance of the Chief of Police, to review LAPD crowd-management policies, including use of force, coordination with outside agencies, and interactions with minors, and report back with recommended policy and training revisions.

PLANNING & LAND USE MANAGEMENT

The sites located at 1502 East Lomita Boulevard, 1600 East Lomita Boulevard, and 1612 North Blinn Avenue in Wilmington, CA 90744; and APN Nos. 726027018, 7426027019, and 7426027020 have generated a significant number of service calls for the Los Angeles Police Department in the past few years. The property has a history of repeated violations, unsafe conditions, and enforcement by the Department of Building and Safety has not resulted in changing conditions for the property. The surrounding area's quality of life has been severely impacted by the long-standing issues stemming from the property.

This situation needs to be corrected immediately through the City's land use regulatory controls; therefore, the necessary nuisance abatement investigation(s) need to be initiated by the Planning Department, with the assistance of the Department of Building and Safety, and Police Department, and in consultation with the City Attorney.

Los Angeles Municipal Code (LAMC) Chapter 1A, Section 13B.6.2, *Nuisance Abatement/Revocation*, allows the Zoning Administrator to modify, discontinue, or revoke any land use or discretionary zoning approval if it is found to jeopardize or adversely affect the public health, peace, or safety of persons residing or working on the premises or in the surrounding area; constitute a public nuisance; resulted in repeated nuisance activities; adversely impact nearby uses; violates any provision of Chapter 1A or Chapter I of the LAMC, or any other city, state, or federal regulation, ordinance, or statute; violate any condition imposed by a prior legislative or discretionary land use approval; or violate an approval initiated by application of a property owner or owner's representative related to the land use.

It is through the City's land use regulatory controls that community members are protected through the maintenance of the public peace, health, and safety of persons living or working in communities and neighborhoods citywide. Therefore, it is imperative to address these detrimental quality of life activities, and take corrective action as soon as possible, and thereby prevent escalation and drain of City enforcement resources.

I THEREFORE MOVE that the Council instruct the Planning Department, with the assistance of the Department of Building and Safety, Police Department, and in consultation with the City Attorney, and any other relevant department or agency, to investigate any matters of reported nuisance activities occurring onsite at the sites located at 1502 E Lomita Boulevard, 1600 E Lomita Boulevard (APN No. 726027018), 1612 N Blinn Avenue (APN No. 7426027019) and APN No. 7426027020 in Wilmington, CA 90744; and thereafter, the Zoning Administrator may initiate Administrative Nuisance Abatement Proceedings per Municipal Code Section 12.27.1; Chapter 1A Section 13B.6.2, and prepare the necessary reports and recommendations, conduct the required public hearings, and thereby protect the public peace, health, and safety of the community by imposing corrective conditions to address the reported nuisance activities that are occurring onsite at the property.

Measure ULA, also known as United to House LA, is a tax measure that 58 percent of voters supported in November 2022. In accordance with the measure, 70 percent of program funds will support construction, rehabilitation, and preservation of affordable housing and 30 percent will support homelessness prevention programs. Measure ULA will provide much needed affordable housing and resources to tenants at risk of becoming homeless.

The need to continue to support and defend Measure ULA is necessary to ensure Angelenos have access to crucial resources and services, especially those offered by the Tenant Outreach and Education Program. Prevention services and outreach are proactive measures vital to supporting housing stability. Currently, it is difficult to track the number of nonprofit partners that are receiving ULA funding, where they are concentrating their outreach and support, and the number of tenants receiving services. In-person tenant rights outreach services are provided in some Council District but are lacking in other areas of the City. Virtual tenant rights services and distant in-person workshops are not accessible to all constituents due to the lack of technology, resources, financial strain, and transportation barriers.

All Council Districts should have equitable access to in-person eviction prevention workshops, resources, and services. Additionally, it is important to have regular, updated data from partners who are funded to deliver Tenant Outreach and Education Programs to ensure that these services are reaching all communities in need.

I THEREFORE MOVE that Council instruct the Los Angeles Housing Department, in coordination with the Information Technology Agency, to report on the outcomes of the United to House LA Tenant Outreach and Education Program and a timeline to create an online dashboard and heat map with outcome data, which should address the five outcome metrics in the ULA Program Guidelines and details on how funding is distributed among the contracted partner organizations, the geographic areas where these partners are assigned to conduct outreach and services, and a breakdown of outreach and services provided in-person or virtually by Council District.

The City of Los Angeles must assert its full regulatory authority to confront the unchecked proliferation of property owners and outdoor advertising companies that violate the City's sign regulations. With the 2028 Olympic and Paralympic Games approaching, illegal commercial advertising activity is rapidly expanding beyond traditional to include "wild" postings, mobile billboards, and massive digital wallscales.

This illicit activity creates an inequitable marketplace that forces taxpayers and code-compliant companies to subsidize the significant enforcement costs to police violations. Furthermore, as the owner and steward of the Public Right-of-Way, the City has an obligation to protect against unnecessary visual clutter and a duty to protect the market share of its own advertising programs. This authority was affirmed in *Metro Lights, L.L.C. v. City of Los Angeles* (2009), which confirmed the City's right to prohibit off-site signage to protect the revenue-generating value of public assets. Despite this responsibility, new illegal digital is rapidly expanding, and loopholes remain. The "temporary" construction wall exemption is frequently exploited by bad actors to generate millions while stalling actual development.

Unfortunately the City's current enforcement tools are lacking as an effective deterrent. As detailed in the Department of City Planning's March 4, 2014 report (CF 11-1705), current citation fees are routinely ignored by operators, forcing the City to rely on resource-intensive criminal prosecutions to ensure compliance. Council Files 08-2020, 11-1705, 17-0893, and 11-1705-S1 document years of requests for stronger enforcement tools that have yet to be implemented. Immediate legislative action is required.

I THEREFORE MOVE that the City Council request the City Attorney, with assistance of the Department of City Planning and the Department of Building and Safety, to prepare and present an ordinance to amend to the Los Angeles Municipal Code to mandate accountability, close regulatory loopholes, and safeguard the public right-of-way with penalties sufficient to deter illegal off-site signage and ambush marketing activity. The amendments should include the following elements:

1. Establish a broad definition of Outdoor Advertising Companies (OACs) that captures any entity marketing space facing the public right-of-way; require all OACs to register a sworn inventory of assets, similar to the Home Sharing Ordinance registration requirements; and mandate an irrevocable Letter of Credit or Surety Bond to guarantee compliance and cost reimbursement;
2. Establish a fine of up to \$50,000.00 per day for code violations related to maintaining digital, off-site signage in any format; and a fine of up to \$25,000.00 per day for violations related to maintaining static, off-site signage in any format; thereby establishing a severe penalty framework with substantial daily, escalating fines;
3. Redefine "on-site" to strictly require bona fide, primary business operations, thereby prohibiting any artificial business arrangement designed to circumvent the City's off-site advertising prohibitions;
4. Clarify that this framework applies to all commercial sign formats including but not limited to, billboards, wallscales, wild postings, mobile, supergraphics, rooftop structures, and window-displays;

FEB 10 2026

MOTION

5. Include mechanisms to hold parent companies, property owners, and affiliates liable for fines incurred by shell entities to halt the ability of OACs and property owners to hide assets;
6. Exercise authority under California Government Code Sections 38771 and 38773 to declare illegal off-site signs a public nuisance per se, authorizing summary abatement (removal) of signage and equipment, with all costs assessed against the owner via nuisance abatement liens;
7. Ensure the applicability of this Ordinance to violators of the Olympic and Paralympic Planning and Zoning Exemption Ordinance (CF No. 15-0989-S47);
8. Preclude any OAC or property owner with outstanding sign violations from bidding on future City contracts or partnerships;
9. Ensure the applicability of this Ordinance to violators of Los Angeles Municipal Code section 14.4.17.; and
10. Facilitate a streamlined process for sign takedowns and pulling demolition permits for unpermitted signs; and waive all related plan check and inspection fees.

I FURTHER MOVE that Department of City Planning, with the assistance of the City Attorney to prepare and present an ordinance to **REPEAL AND REPLACE** Los Angeles Municipal Code section 14.4.17. The Repeal Ordinance should include the following elements:

1. An immediate effective date, on the earliest date allowable.

The Replacement ordinance should include the following elements:

2. A mechanism to require a 50% revenue share with the City on all expected gross advertising revenue;
3. Higher fees for vacant properties to discourage continued vacancies;
4. Increased responsibility for graffiti and nuisance abatement clean-up; and
5. A requirement that all currently permitted temporary construction wall signs must: (i) register as an OAC; and (ii) immediately display identification signage ("Imprint") listing the operator and permit number for the remainder of their permit term to facilitate enforcement and verify compliance.

GOVERNMENT OPERATIONS

Commodity contracts are used by the City to procure materials, equipment, and supplies necessary for daily operations. Commodity contracts are essential for the City to create an accurate, stable budget regarding equipment and supplies by preventing unexpected expenses. These contracts are meant to ensure fair pricing and guaranteed availability for important supplies to maintain City operations. As the majority of funding used in these contracts are taxpayer dollars, it is important that the commodity contracts initiated by the City are providing the most optimal prices for the purchased products.

However, in a 2009 Audit of GSD and the procurement process, the Controller's office found that "The City may be spending millions of dollars more than necessary, than if the benefits of competition were being fully realized." More recently, instances have occurred where City staff have identified less expensive alternatives than what the City's commodity contracts are offering, but due to the existing contracts, the City is required to use the selected contractor and pay a higher price.

There is a clear need to reexamine our commodities contracts to ensure the City is not wasting resources. Council District 5 and the Controller have been working collaboratively to address this issue, and the Controller is currently scoping out a new audit to investigate these and other concerns about the City's procurement process.

I THEREFORE MOVE that Council REQUEST the Controller proceed expeditiously with the planned independent audit on commodity procurement (including the competitiveness of the citywide procurement process) and present the findings to City Council. The scope of the Audit should consider, but not be limited to, an evaluation of the City's request for bid process, the price the City pays for supplies compared to what other government agencies pay, the use of piggybacking in these contracts, and a review of all contract stipulations that limit the pool on applicants that can apply to commodity contracts.

I FURTHER MOVE, the Council instruct the General Services Department with assistance of the City Attorney, to identify and report on necessary adjustments in the City Municipal code that enable for contracts to be adjusted or nullified if it is beneficial to do so.

I FURTHER MOVE that Council instruct the General Services Department, with the assistance of the City Attorney, to report on the feasibility of including a clause in new commodity contracts that allows the City to compare supplier pricing against current market and requires vendors to offer the most favorable pricing available to the city, including prices offered to the public, to ensure the City is paying a fair price for acquired goods.
