There is an immediate need to act to protect the public against possible death and injury. RESOLUTION

WHEREAS, any official position of the City of Los Angeles with respect to legislation, rules, regulations or policies proposed to or pending before a local, state or federal governmental body or agency must have first been adopted in the form of a Resolution by the City Council; and

WHEREAS, copper wire theft continues to be a persistent and costly issue impacting communities throughout Los Angeles, having far-reaching consequences such as prolonged power outages and darkened streets, which directly diminishes neighborhood security and quality of life; and

WHEREAS, the constant need for repair and replacement of stolen infrastructure places a substantial financial burden on the city, draining taxpayer funds that could otherwise be allocated to essential public services; and

WHEREAS, in 2024, persistent wire theft resulted in nearly forty-five thousand service requests that seriously strained the Bureau of Street Lighting's resources, causing repair delays of over six months; and

WHEREAS, despite the City's best efforts to curb rampant copper wire theft through task forces and creative lighting, the damages caused by copper wire theft continue to be a significant financial cost and public safety concern; and

WHEREAS, Assembly Bill 476, signed by the Governor in October 2025, requires junk dealers and recyclers to include the time, amount paid, and employee name for each transaction in their written records, revise the description of junk items, and obtain a signed statement of ownership or source; and

WHEREAS, Assembly Bill 1941, introduced by Assemblymember Mark Gonzalez, builds upon the effective legislation of AB 476 by targeting repeat and organized offenders who steal or traffic prohibited metal materials and creates a statewide data-sharing tool to allow for increased visibility into organized metal theft operations; and

WHEREAS, AB 1941 would establish organized metal theft punishable as either a misdemeanor or a felony, sending a clear message that those who damage our City's infrastructure and make our communities less safe will face stiff consequences;

NOW, THEREFORE, BE IT RESOLVED, that by the adoption of this Resolution, the City of Los Angeles hereby includes in its 2025-2026 State Legislative Program SUPPORT of AB 1941 (Gonzalez) and would encourage additional amendments to clarify that criminal liability of metal theft be calculated based upon the full cost to the victim to repair and replace the stolen materials, including labor and equipment, rather than the fair market scrap value.

MOTION

There is an assisted living facility and memory care home located at 2100 S. Western Avenue in San Pedro that has been serving Council District 15 for several years. A portion of the approximately five-acre property is reportedly being considered for potential expansion and development to include transitional housing and inpatient and outpatient mental health services.

The California Community Care Facilities Act allows municipalities to regulate licensed facilities that house seven or more persons and to restrict these facilities to certain zoning districts and to require conditional use permits, variances, or other zoning clearances. Additionally, individuals recovering from alcohol and drug addiction are considered persons with disabilities and are protected from discrimination under the Americans with Disabilities Act and the Fair Housing Act. State law further requires municipalities to treat community care facilities and alcohol and drug abuse treatment facilities serving six or fewer residents the same as any other single-family residence.

At this time, there are indications that the site may be under consideration, for sale and subsequent development. However, given the reported interest in expanding or modifying the use of the property, it is appropriate to obtain clarity regarding the City's applicable land use controls and any State or Federal regulatory framework that would govern such an application should one be filed. In the interest of sound public policy and transparency, the City should be prepared to articulate and communicate what local land use regulations and applicable State and Federal laws would apply to any future application at this site.

I THEREFORE MOVE that the City Council instruct the Planning Department, with the assistance of the Department of Building and Safety, and in consultation with the City Attorney, to prepare a report outlining the land use regulatory controls that would apply, or could be made applicable, to any proposal submitted for the expansion or development of the property located at 2100 S. Western Avenue in San Pedro as transitional housing, inpatient and outpatient mental health services, or any other State-licensed community care facility. This report should also include an explanation of any applicable State and Federal regulatory controls and laws that would govern such a proposal, should one be submitted.

WHEREAS, these education professionals have worked tirelessly for decades to educate and support Los Angeles' children, and

MOTION

In July 2025, the Los Angeles City Council approved a resolution supporting Assembly Bill 630 (AB 630), authored by State Assemblymember Mark Gonzalez. Gavin Newsom signed AB 630 into law in October 2025. Following the bill's adoption, in December 2025, the Council directed City departments to begin implementing its provisions and to report back with an overview of operational impacts, including any necessary updates to Municipal or Administrative Codes.

AB 630 increased the financial threshold for the disposal and dismantling of impounded recreational vehicles (RVs) in Los Angeles and Alameda counties from \$500 to \$4,000. The previous \$500 state threshold created a system in which inoperable RVs, often posing significant health and safety risks, were auctioned and ultimately returned to the streets of Los Angeles. In many cases, individuals used these vehicles for shelter despite the risks they presented.

AB 630 could help to address the lack of storage space in current City Tow Yards. It reduces the required storage time an operator has to hold a vehicle allowing for the quicker disposal of RVs that cause health and safety issues to Los Angeles residents.

With the passage of AB 630, the City gained an additional tool to remove inoperable RVs from public streets. The higher threshold reduces the likelihood that unsafe vehicles will be auctioned and returned to the community, creating a more streamlined process to prevent their reappearance.

Removing abandoned and unsafe RVs from neighborhoods, and preventing their return, helps reduce risks to residents. Under prior state law, the City's contracted tow companies were required to auction these vehicles, often resulting in their return to the streets and ongoing health and safety concerns for those who encountered or occupied them.

This month, however, a Superior Court judge blocked the City from implementing AB 630, ruling that the City lacks the "legal authority" to carry out certain provisions of the state law. This decision may hinder the progress made since the bill's passage.

I FURTHER MOVE that Council REQUEST the City Attorney to report on the status of the current litigation involving Assembly Bill 630 to Council in 7 days.
