(2) **24-0688**

GOVERNMENT OPERATIONS COMMITTEE REPORT relative to artificial intelligence (AI) and translation services for public meetings.

Recommendations for Council action, SUBJECT TO THE APPROVAL OF THE MAYOR:

1. APPROVE the qualified list of consultants for as-needed Language Access Plan (LAP) implementation services for City Departments recommended in Attachment A of the October 22, 2025 Community Investment for Families Department (CIFD) report, attached to the Council File, and identified through the Request for Qualifications issued by the CIFD in May 2025 for a term of three years, effective on the date of final Council approval.
2. AUTHORIZE the General Manager, CIFD, or designee, to solicit bids from the qualified list as detailed in Attachment A of the October 22, 2025 CIFD report, attached to the Council File, and execute contracts on an as-needed basis, subject to funding availability, in compliance with the City's contracting policies, and City Attorney approval as to form.
3. AUTHORIZE General Managers, City Departments, or designees, to:
 - a. Solicit bids from the qualified list as detailed in Attachment A of the October 22, 2025 CIFD report, attached to the Council File, and execute contracts on an as-needed basis, subject to funding availability, in compliance with the City's contracting policies, and City Attorney approval

as to form.

- b. Upon execution of the contracts, encumber and disburse funds to the contractors for services, in accordance with the terms set forth in said agreements.

4. AUTHORIZE the CIFD to prepare Controller instructions and/or make technical adjustments that may be required to implement the actions approved by the Mayor and Council on this matter, subject to CAO approval; and, AUTHORIZE the Controller to implement these instructions.

Fiscal Impact Statement: The CIFD reports that the recommendations in the October 22, 2025 CIFD report, attached to the Council File, have no impact on the General Fund. The funding is currently available in CIFD's budget.

Community Impact Statement: None submitted

(3) 21-0722-S1

GOVERNMENT OPERATIONS COMMITTEE REPORT relative to proposed license agreement with the Canoga Park Community Center Foundation (CPCCF) for use of the City-owned property at 7248 Owensmouth Avenue.

Recommendations for Council action, pursuant to Motion (Blumenfield – McOsker):

1. INSTRUCT the Department of General Services, with the assistance of the City Attorney and City Administrative Officer (CAO), to negotiate a new non-profit lease with the CPCCF for use of the City-owned property at 7248 Owensmouth Avenue, including:

- a. An initial three-year term with two one-year options to extend
 - b. Zero rent with the non-profit responsible for maintenance and basic repair of the facility.
 - c. Allowing subleases and room rentals.
2. FIND, pursuant to Charter Section 371(eX(10) and Los Angeles Administrative Code Section 10.15(a)(10), that the use of competitive bidding for the proposed license agreement with the CPCCF would be undesirable and impractical for the following reasons:
- a. CPCCF offers a safe environment for community growth and connection.
 - b. Losing access to this property would make it difficult, if not impossible, for residents to continue hosting the irregular events.
 - c. Given CPCCF's background and work experience, it is the most qualified entity to operate at this property.

Fiscal Impact Statement: Neither the CAO nor the Chief Legislative Analyst has completed a financial analysis of this report.

Community Impact Statement: None submitted.

Adopted Item

(4) **26-0142**

GOVERNMENT OPERATIONS COMMITTEE REPORT relative to authority to negotiate and execute a lease agreement with the California Department of Transportation (Caltrans) for vehicle storage at 550 Ramirez Street, CA 90026 for the Los Angeles Police

Department (LAPD) Motor Transport Division (MTD).

Recommendation for Council action:

AUTHORIZE the Department of General Services (GSD) to negotiate and execute a lease agreement with Caltrans for the use of property for LAPD vehicle storage at 550 Ramirez Street, Los Angeles, CA 90012 under the terms and conditions as substantially outlined in the February 3, 2026 Municipal Facilities Committee (MFC) report, attached to the Council File.

Fiscal Impact Statement: The MFC reports that there is no anticipated General Fund impact. Based on the projections provided by GSD, there is sufficient savings within the Citywide Leasing Account to fund the leasing costs. Also, funding for the lease is included in the 2025-26 General Funded Leasing Account Budget in the amount of \$53,201.52. Current monthly rent is \$4,433.46, which is projected to cover five months of the fiscal year while the proposed rent of \$8,200 per month applies to the remaining seven months as the new term and rate is effective December 1, 2025. Total fiscal year expenses are projected at \$79,565, which is \$26,363 more than the budgeted amount resulting in a negative impact to the General Fund. The GSD will include this amount in the next quarterly status report of the Leasing Account as there may be other savings which can offset this deficit.

TIME LIMIT FILE - APRIL 4, 2026

(LAST DAY FOR COUNCIL ACTION - APRIL 3, 2026)

GOVERNMENT OPERATIONS COMMITTEE REPORT relative to the sale of City-owned property located at 1345 North El Centro Avenue and 6207 West Afton Place, Assessor Parcel Nos. (APNs) 5546-022-900 & 5546-022-900 as a surplus asset.

Recommendations for Council action, pursuant to Motion (Soto-Martinez – Padilla):

1. DECLARE the City-owned property located at 1345 North El Centro Avenue and 6207 West Afton Place, APNs 5546-022-900 & 5546-022-900, as a surplus asset.
2. DIRECT the Department of General Services (GSD) to initiate the surplus property process, and conduct a Class A appraisal on the above properties.
3. DIRECT the GSD, with the assistance of the City Attorney and City Administrative Officer (CAO), to take all necessary steps and prepare all required documents to effectuate the sale of these parcels.

(8) **26-0085**

GOVERNMENT OPERATIONS COMMITTEE REPORT relative to the sale of the City-Owned 4,787 square-foot remnant parcel at 1530 South Mateo Street, Los Angeles, 90021.

Recommendations for Council action, as initiated by Motion (Jurado – Hutt):

1. INSTRUCT the Bureau of Engineering (BOE) to effectuate the non-financial transfer of jurisdiction and control of the 4,787 square-foot remnant parcel at 1530 South Mateo Street, Los Angeles, 90021 from the BOE to the Department of General Services (GSD).
2. DECLARE, upon the transfer of said property to GSD, the parcel as "Exempt Surplus Land" pursuant to the California Surplus Land Act, inasmuch as the property qualifies as exempt surplus land under Government Code Section 54221 (f)(1)(B), which exempts "[s]urplus land that is less than one-half acre in area and is not contiguous to land owned by a state or local agency that is used for open-space or low- and moderate-income housing purposes. Notwithstanding Section 54221 (f) (2), under Government Code Section, 54221 (f)(2), the Property cannot qualify as exempt surplus land if it is:
 - a. Within a coastal zone
 - b. Adjacent to a historical unit of the State Parks System
 - c. Listed on, or determined by the State Office of Historic Preservation to be eligible for, the National Register of Historic Places
 - d. Within the Lake Tahoe region as defined in Government Code Section 66905.5

Because none of these characteristics apply to this Property, it qualifies as exempt surplus land under the Surplus Land Act. "

3. INSTRUCT the GSD, with the assistance of the City Attorney, to effectuate the sale of said parcel

PUBLIC WORKS COMMITTEE REPORT relative to a pothole inventory, pothole repair response times, pothole funding, and related matters.

Recommendations for Council action, pursuant to Motion (Price - Hernandez):

1. INSTRUCT the Bureau of Street Services to report on:

- a. A citywide inventory of potholes identified since December 24, 2025, attributable to storm activity, including location and repair status, in a format suitable for mapping and regular updates.
- b. An analysis of pothole repair response times during the recent storms, disaggregated by Council District, identifying service disparities and strategies to improve equitable response.
- c. Identification of potholes presenting elevated public safety risks and recommended prioritization criteria for repair.

2. INSTRUCT the City Administrative Officer (CAO) to report with the fiscal impacts and budget constraints associated with storm-related pothole operations; and alternative short- and long-term funding strategies to support pothole repair and street

maintenance efforts, including reallocation of existing funds, one-time funding sources, and available state or federal funding opportunities.

PUBLIC WORKS COMMITTEE REPORT relative to initiating proceedings to establish a pedestrian mall on the 5600-5900 blocks of Mulholland Highway for public access to Griffith Park, and related matters.

Recommendations for Council action, pursuant to Motion (Raman – Soto-Martínez):

1. INSTRUCT the Bureau of Engineering (BOE), with the assistance of the City Attorney and the Department of City Planning, to prepare a Resolution of Intention to initiate proceedings to establish a pedestrian mall on the 5600-5900 blocks of Mulholland Highway (east of the Deronda Gate) to ensure that this area will consistently be available for safe public pedestrian use and access to Griffith Park.
2. INSTRUCT the City Administrative Officer (CAO) and BOE to identify funding to conduct any necessary environmental review for establishment of a pedestrian mall on the 5600-5900 blocks of Mulholland Highway (east of the Deronda Gate).
3. INSTRUCT the BOE to revoke or amend any existing revocable permits, or issue any new revocable permit(s) or encroachments necessary to modify the existing gate at this location, allow for separate pedestrian access, limit private vehicular access, and establish conditional rights and responsibilities for the permittee(s).
4. REQUEST the Board of Recreation and Parks to assume responsibility of the existing vehicular gate (the Deronda Gate) and install a pedestrian gate within that gate at the intersection of Deronda Drive and Mulholland Highway.

TO CITY CLERK FOR PLACEMENT ON NEXT
REGULAR COUNCIL AGENDA TO BE POSTED

#52

On the night of January 27, 2026, a fire broke out at the Tiny Homes Mission, a Bridge Housing site located at 850 North Mission Road in Council District 14. While the cause remains under investigation, the incident resulted in significant damage, and immediate debris removal is necessary to restore the site and ensure the health and safety of current participants.

I THEREFORE MOVE that \$105,512 be transferred / appropriated within the Homeless Efforts – County Funding Agreement Fund No. 63Q-10 from Available Cash Balance to Account No. 10T618 (Homeless Effort – County Funding Agreement).

I FURTHER MOVE that \$105,512 be transferred / appropriated from the Homeless Efforts – County Funding Agreement Fund No. 63Q-10, Account No. 10T618 (Homeless Effort – County Funding Agreement) to the General Services Fund No. 100-40, as follows: \$41,361 to Account No. 1014 (Salaries, Construction Projects) AND \$64,151 to Account No. 3180 (Construction Materials) for debris cleanup at the Tiny Home Village site located at 850 N. Mission Road in Council District 14.

I FURTHER MOVE that the City Administrative Officer be authorized to make any corrections, clarifications or revisions to the above fund transfer instructions, including any new instructions, in order to effectuate the intent of this Motion, and including any corrections and changes to fund or account numbers; said corrections / clarifications / changes may be made orally, electronically or by any other means.

For many years, the pedestrian tunnel located at the intersection of Soto Street and 7th Street in Boyle Heights beside Soto Street Elementary School has threatened community safety. Hazards resulting from trash and debris flows after adverse weather conditions as well as harmful activities inside the tunnel deter pedestrians, including students using the passageway in their daily commute to school.

As previous efforts to adequately close the tunnel have been unsuccessful, there is an urgent need for the City to develop a permanent solution to close the tunnel. This endeavor will advance safer, more accessible streets for our students, educators, workers, families, and surrounding community.

I THEREFORE MOVE that the City Council instruct the Bureau of Engineering, in collaboration with Bureau of Street Services and other relevant City departments, to report on recommendations to permanently close the pedestrian tunnel at the intersection of Soto Street and 7th Street, beside Soto Street Elementary School. The report should include all feasible closure options and their estimated costs.

HOUSING & HOMELESSNESS

Access Centers are a critical lifeline in Los Angeles's homelessness response system, serving as a primary point of entry to housing, healthcare, employment support, and essential public services. Through the Coordinated Entry System, Access Centers provide initial screenings, emergency referrals, case management, mail services, and connections to public benefit programs. These services are delivered citywide and are often accessed repeatedly, with many individuals relying on Access Centers for daily basic needs such as hygiene, nutrition, medical care, safety and communication. The City of Los Angeles currently provides these services through 8 Access Centers: Downtown Women's Center (CD14), Harbor Interfaith (CD15), Hope The Mission (CD2), HOPICS (CD9), Midnight Mission (CD14), St. Joseph Center (CD11), Weingart (CD14), and WLCAC (CD15).

Access Centers stabilize individuals and communities, reducing reliance on emergency rooms and other high-cost public systems while strengthening public health and safety across neighborhoods. As Los Angeles responds to federal immigration activity and prepares for global events such as the World Cup and the 2028 Olympic Games, Access Centers play an essential role in absorbing system shocks and maintaining continuity of care.

Access Centers are currently set to lose funding, threatening the continuity of leveraged resources and services unlocked by base funding previously provided by the Los Angeles Homeless Services Authority (LAHSA) as a pass-through funder. Previous data presented focused on HMIS enrollments, which does not capture repeated service engagements between an individual and an Access Center nor the number or type of essential services provided.

I THEREFORE MOVE that the Council instruct the Chief Legislative Analyst, in coordination with Los Angeles Housing Department, the Los Angeles Homeless Services Authority, the City Administrative Officer, the Downtown Women's Center, HOPICS, and Council District staff, to report within 30 days on all eight City of Los Angeles Access Center activity and engagement. The report should include data using a combination of both HMIS and databases/resources outside of HMIS, understanding that not all services provided will be captured within the HMIS System. The report should include, but is not limited to, the following information:

- Qualitative Data on services provided or co-located at the Access Centers that are funded by the City of Los Angeles (Operation Safe Streets, etc.) or a public funding source
- Number of Access Centers that have closed and/or are at risk of closure
- Number of unduplicated people served (instead of HMIS enrollments)
- Number of unduplicated people receiving mail services through Access Center
- Number of meals, showers, medical services, referrals to housing, and total services provided by each Access Center, as well as total services including duplicated use of services provided by each access center
- Number of Staff funded through Access Center contract, as well as staff employed through leveraged funding
- Access Center contract funding received from the Los Angeles Homeless Services Authority
- Estimated Cost to Run Access Center, inclusive of all services (Access Center contract plus leveraged funding including in-kind donations)
- Unduplicated People Served by Access Centers (not HMIS Enrollments) as % of 2025 CoC Homeless Count (Total Sheltered and Unsheltered Individuals)
- Unduplicated People Served by Access Centers (not HMIS Enrollments) as % of 2025 CoC Homeless Count (Total Individuals-Unsheltered Only)

RESOLUTION

RULES, ELECTIONS, AND INTERGOVERNMENTAL RELATIONS

WHEREAS, any official position of the City of Los Angeles (City) with respect to legislation, rules, regulations or policies proposed to or pending before a local, state, or federal government body or agency must have first been adopted in the form of a Resolution by the City Council with the concurrence of the Mayor; and

WHEREAS, Los Angeles will host several major global events in the coming years, including the 2026 FIFA World Cup, 2027 Super Bowl LXI, and the 2028 Olympic and Paralympic Games, providing an opportunity to showcase the City's leadership in sustainability and climate action; and

WHEREAS, Los Angeles International Airport (LAX) currently serves approximately 75 million passengers annually, and passenger volumes are expected to increase significantly in advance of and during major global events such as the 2026 FIFA World Cup and 2028 Olympic and Paralympic Games; and

WHEREAS, these events are expected to bring millions of visitors to the region, underscoring a collective commitment to reduce the carbon footprint of event-related activities through the deployment of clean energy and low-emission transportation options; and

WHEREAS, the International Olympic Committee and LA28 have published a sustainability strategy that includes reducing the carbon footprint of all activities associated with the 2028 Olympic Games; and

WHEREAS, published reports indicate that the aviation industry contributes to approximately 3% of global carbon emissions; and

WHEREAS, Sustainable Aviation Fuel (SAF) is a fuel made from non-petroleum feedstocks that reduces air pollution from air transportation; and

WHEREAS, scientific literature strongly indicates that use of SAF protects public health in nearby communities, and significantly reduces volatile organic compounds (VOX) and non-volatile particulate matter (nvPM) pollution, while reducing health risks for workers and passengers who spend significant time near airport operations; and

WHEREAS, SAF is produced in California using a Skilled and Trained Workforce (as defined by California Public Contract Code §2601(d)); and

WHEREAS, robust, long-term incentives for SAF will strengthen renewable energy markets, stimulate energy and fuel innovations, foster technological progress, and reinforce California's position as a global leader in sustainable aviation; and

WHEREAS, demand for SAF is expected to grow as major U.S. airlines, airports, shippers, and the federal government have agreed to work together to advance the use of cleaner fuels; and

WHEREAS, SAF production facilities in California face economic uncertainty without targeted support, threatening the loss of critical jobs and delayed progress in the creation of a sustainable aviation industry; and

WHEREAS, to support our state, our environment, and our aviation industry partners, California Governor Gavin Newsom has proposed a SAF incentive package in his 2026-27 budget.

NOW, THEREFORE BE IT RESOLVED, that by adoption of this Resolution, the Council of the City of Los Angeles hereby SUPPORTS Governor Gavin Newsom's proposal to establish a stable, long-term incentive for Sustainable Aviation Fuel in California's 2026-27 budget.

MOTION

California faces a serious housing affordability crisis. Over the last few years, in an effort to stimulate the construction of much-needed housing, the State has enacted numerous bills to streamline local land use approvals, and limit discretionary review. No matter how well-intended, Statewide legislation cannot always take into account the nuances of the zoning codes of every local jurisdiction in California, and can sometimes cause unintended negative consequences in a local jurisdiction like Los Angeles, where the interplay between State law and our local zoning code has led to absurd results that could streamline projects under circumstances that bear no resemblance to the intent of the legislation.

California Government Code sections 65912.100 *et seq.*, the *Affordable Housing and High Roads Job Act of 2022* (the “Act”), is intended to provide a streamlined approval process for eligible housing development projects along commercial corridors. The clear intent of this legislation, as expressed by its plain language and its legislative history, is to facilitate housing development along true commercial corridors that “are typically the location of strip retail centers and parking lots” and “facilitate transit use and other non-vehicular modes of transportation.” “This bill expands the potential sites where housing can be developed, while directing development away from existing residential neighborhoods – in particular, existing single-family neighborhoods.”¹

That is a laudable goal, and one which the City supports. More than 20 years ago, the City facilitated mixed-use housing development to revitalize older commercial corridors when it created Residential/Accessory Services (RAS) zones. In 2017, at the direction of Los Angeles voters who enacted Measure JJJ, the City created the Transit Oriented Communities (TOC) Program. In 2021, the Council strongly supported the Southern California Association of Governments (SCAG) allocation of more than 450,000 housing units to the City in the Regional Housing Needs Assessment (RHNA); and in furtherance of that goal has adopted the Citywide Housing Incentive Program (CHIP), including the Mixed-Income Incentive Program (MIIP) and Affordable Housing Incentive Program (AHIP).

The Act defines “commercial corridor” solely in terms of street width, and includes all streets with a right-of-way between 70 and 150 feet wide; and makes projects eligible if they are located in a zone where office, retail or parking is a “principally permitted” use. AB 2243 (Wicks), which took effect January 1, 2025, made numerous changes to the Act in order to, in the words of the author, “make it easier to build more housing in the right locations.”²

One of the changes amended the Act to provide that parking uses are considered “principally permitted” whether or not they require a Conditional Use Permit. In Los Angeles, this seemingly innocuous change—which, while mentioned in some of the dozen committee and floor reports on the bill, was not discussed in any of them—radically expanded the applicability of the Act beyond true commercial corridors into single-family neighborhoods, and made it easier to build in the *wrong* locations, specifically, low- density neighborhoods in Very High Fire Severity Zones.

The Los Angeles Municipal Code—the Zoning Code (Municipal Code Section 12.24 W 37), currently allows public parking areas in the Agricultural (A) or Residential (R) zones by a discretionary review process through the application of, and if granted, through the issuance of a Conditional Use Permit (CUP). The expansive availability of parking by CUP was well-intentioned, reflecting that parking can be a beneficial use, particularly on A- and R-zoned parcels where parking supplements commercial

development or religious and educational institutions, or in the future to provide congregate electric vehicle charging.

Nevertheless, under our current Zoning Code, the Act has the unintended consequence of allowing large scale affordable and mixed-income housing projects on any A or R zoned parcel on a street that is more than 70 feet wide, including in Very High Fire Severity Zones similar to those ravaged by the Palisades and Eaton Fires. That is contrary to the intent of the Act and contrary to good planning policy.

For that reason, the Zoning Code should be amended to allow parking by CUP only in those areas where parking can reasonably be expected to provide a benefit and complement surrounding uses; and eliminate the availability of parking by CUP in more sensitive areas.

As an immediate need, the City must disallow parking by CUP in the A zone, particularly in the A1 and A2 zones, and particularly in Very High Fire Severity Zones in Hillside Areas. In the longer term, the City should develop a more tailored approach in the R zones through further community and stakeholder public engagement and vetting.

I THEREFORE MOVE that the Council instruct the Planning Department, with the assistance of the Department of Building and Safety, and in consultation with the City Attorney, to prepare and present a proposed ordinance to amend Municipal Code Section 12.24 W 37 (*Public Parking Areas in the Agricultural and Residential Zones by Conditional Use Permit*), to disallow public parking in the A Zone; and to prepare a report with recommendations to consider modifying allowable public parking in Residential Zones in sensitive areas.

I FURTHER MOVE that the Council instruct the Planning Department, with the assistance of the Department of Building and Safety, and in consultation with the City Attorney, to prepare and present an Interim Control Ordinance (ICO) that prohibits the issuance of approvals and permits associated with any demolition, building, use of land, grading, and other applicable permits for public parking areas on parcels in the Agricultural (A) zone that are wholly or partially located in the Very High Fire Severity Zone or Hillside Areas.

I FURTHER MOVE that the ICO include an Urgency Clause, making it effective upon publication, and consistent with California Government Code §65858, the ICO shall run for 45 days, with a 10-month and 15 day extension by Council Resolution, and can be further extended for an additional 1 year, or until the adoption of the appropriate land use regulatory controls have been prepared by the Planning Department, adopted by the Council and become effective, whichever occurs first.
