PERSONNEL AND HIRING COMMITTEE REPORT relative to supplemental resources for the Human Resources and Payroll (HRP) Project.

Recommendations for Council action, SUBJECT TO THE APPROVAL OF THE MAYOR:

1. AUTHORIZE, by resolution, one Programmer Analyst IV (Class Code 1431-4) for the period March 1, 2026 to June 30, 2026, subject to paygrade determination by the City Administrative Officer (CAO), for the Information Technology Agency.
2. AUTHORIZE, by resolution, one Fiscal Systems Specialist I (Class Code 1555-1), two Payroll Analysts (Class Code 1630), and one Financial Management Specialist IV (Class Code 9198-4) for the period March 1, 2026 to June 30, 2026, for the Controller.
3. INSTRUCT the CAO to process an unfreeze for four Accounting Clerks (Class Code 1223) within the Los Angeles Police Department (LAPD) that are beyond the LAPD's funded civilian hiring plan.

Fiscal Impact Statement: The CAO reports that there is no additional impact to the General Fund. The relevant departments will absorb the additional salary costs within budgeted funds for the current year. Should the positions continue in 2026-27, ongoing reductions or increased revenues must be identified to offset the estimated General Fund impact of \$946,872 as part of the 2026-27 budget development process.

Financial Policies Statement: The CAO reports that the City's Financial Policies require that requests for new or expanded programs be considered during the annual budget development process and only under extreme circumstances be approved on an interim basis during the fiscal year. Accordingly, by approving these positions by resolution on a temporary basis, where Departments are to absorb the associated costs within their current operating budget with no additional impact on the General Fund, and evaluating the ongoing needs for HRP through the annual budget development process, the recommendations in this report are in compliance with the City's Financial Policies.

Sergeant Adrian Carrillo was a lifelong resident of Arleta and a proud graduate of Arleta High School. While still a senior in high school, he was elected to serve on the Arleta Neighborhood Council as a Youth Representative, where he earned widespread respect for his dedication to the community. During his tenure, he actively participated in neighborhood cleanups, charitable events, and other service efforts that reflected his deep commitment to improving the lives of those around him. Following his service on the Neighborhood Council, Sergeant Carrillo answered the call to serve his country by enlisting in the United States Marine Corps. Even while serving in the military, he remained closely connected to his family, friends, neighbors, and the Arleta community he loved.

Tragically, Sergeant Carrillo passed away unexpectedly in an accident on Friday, December 12, 2025. His life was marked by service to his country, to his family, and to his community. The intersection of Terra Bella Street and Woodman Avenue, located within the heart of the community he called home, serves as an appropriate and meaningful location to honor his legacy and that of those who served our country.

The act of honoring our veterans is essential, serving as a powerful demonstration of gratitude for the profound sacrifices made in defense of our nation and its freedoms. By recognizing their service, we acknowledge the dedication, courage, and commitment they displayed, often placing the needs of their country above their own. Honoring them not only preserves the memory and legacy of individuals like Sergeant Adrian Carrillo, whose lives were marked by service to their community and country, but also reinforces the values of patriotism and selflessness for future generations. These tributes, whether through memorials or simple acts of remembrance, ensure that the cost of freedom is never forgotten and provide a necessary connection between those who served and the communities they protected.

I THEREFORE MOVE that the intersection of Terra Bella Street and Woodman Avenue be designated "Veterans Memorial Square" and that the Department of Transportation be directed to erect permanent ceremonial sign(s) to this effect at this location. The subtext of the sign should read "In Memory of Sgt. Adrian Carrillo, USMC".

GOVERNMENT OPERATIONS

The City has taken numerous recent actions to expand existing green spaces and parks and to identify locations for the development of new parks in Council District 10. It is crucial for the City to develop more parks, as these green spaces are known to improve public health and provide space for local communities to gather.

Currently, the lot at 4600 St. Elmo Drive is undeveloped and long been visually blighted. This location could be developed into a future park to provide residents with much-needed green space. In order to create more park and green space in Council District 10, the Department of Recreation and Parks should explore the development of a park at this location at the intersection of St. Elmo Drive and Vineyard Avenue.

I THEREFORE MOVE that Council instruct the Department of Recreation and Parks, with the assistance of the Bureau of Engineering, Bureau of Street Services, Department of Transportation, and Department of General Services, to begin the process of acquiring the property at 4600 St Elmo Drive in Council District 10 for the development of a park at this location.

Despite the growth in women's sports, a significant disparity in opportunities remains. Data from the National Federation of State High School Associations shows that there are still 1.3 million fewer school sports participation opportunities for girls compared to boys. The benefits of sports extend beyond the field, as research shows that girls and women who participate in sports have higher levels of confidence and self-esteem and lower levels of depression. Furthermore, research shows that engaging in as little as four hours of weekly exercise may reduce a teenage girl's risk of breast cancer by up to 60 percent, a disease that affects one out of every eight American women.

Title IX, a federal law enacted by Congress on June 23, 1972, mandates gender equity across all federally-funded educational programs, from preschool through university level, including athletic programming. In addition to this federal requirement, some states, like California, have adopted additional gender equity regulations in community/park and recreation-based sports. Signed into law in 2004, AB 2402 mandates that girls be given equal opportunities to participate in community youth athletic programs, both in quality and scope.

In 2016 the Los Angeles County Board of Supervisors unanimously adopted a motion establishing the Los Angeles County Women and Girls Initiative (WGI). The WGI was tasked with examining the systemic issues that lead to inequitable gender outcomes and recommending changes to improve the quality of life for women and girls in the County. Between 2016 to 2024, the WGI worked to advance gender equity by applying an intersectional gender lens across the County's roles as an employer, service provider, and partner. Given that the skills women and girls acquire through sports participation are vital for their future success in higher education and employment, the City must apply the same standard of accountability to its park system to ensure true gender equity in its athletic programming.

I THEREFORE MOVE that the City Council request the Department of Recreation and Parks to report with a detailed breakdown of investment in boys' sports compared to girls' sports, the number of contracted sports organizations catering to boys versus those catering to girls, and an overview of the formal process for groups to apply for and secure field space, with a specific focus on addressing the "waitlist" system.

TRANSPORTATION

The City of Los Angeles is home to a multitude of outdoor spaces and trails that residents use for exercise, leisure and general recreational activities. The City of Los Angeles is also home to many equestrian communities that utilize these outdoors spaces. As the City of Los Angeles continues to grow and expand, these outdoor spaces and trails have become vital lifelines for residents to enjoy public lands in a safe manner. However, the use of electric bicycles (e-bikes) on these trails have created dangerous situations on trails used by humans and animals alike.

In 2022, Assemblymember Laura Friedman authored AB 1909 which authorizes a local authority to prohibit the operation of any electric bicycle or any class of electric bicycle on an equestrian trail, or hiking or recreational trail. The bill also authorizes the Department of Parks and Recreation to prohibit the operation of an electric bicycle or any class of electric bicycle on any bicycle path or trail within the department's jurisdiction.

City Council adopted a resolution (CF 22-0002-S83) in support of AB 1909 (Friedman) which authorizes local authorities to prohibit the operation of electric bicycles on equestrian, hiking and recreational trails.

I THEREFORE MOVE that the City Council instruct the Department of Recreation and Parks to prohibit the use of electric bicycles on all equestrian, hiking and recreational trails in the City of Los Angeles utilizing signage and all enforcement tools currently available.

I FURTHER MOVE that the electric bicycle prohibition should not include designated Class I, II, III, or IV Bikeways.

I FURTHER MOVE that the Los Angeles Police Department with the support of the Department of Transportation, in conjunction with the Office of the City Attorney, report back on current regulations regarding the use of electric bicycles in the City, and to create a substantial fine structure to discourage electric bicycle use in restricted areas.

I FURTHER MOVE that the Department of Recreation and Parks, the Department of Transportation and the Los Angeles Police Department report back on resources required to enforce electric bicycle bans in sensitive areas.

I FURTHER MOVE that the Office of the City Attorney be requested to prepare an ordinance that prohibits the use of electric bicycles on City trails and details the aforementioned fine structure, with increasing fines for repeat violators.

RESOLUTION

WHEREAS, any official position of the City of Los Angeles with respect to legislation, rules, regulations or policies proposed to or pending before a local, state or federal governmental body or agency must have first been adopted in the form of a Resolution by the City Council; and

WHEREAS, the City of Los Angeles recognizes that California faces a severe shortage of for-sale housing and a significant affordability crisis, which impacts working families, first-time homebuyers, and the long-term economic stability of our communities; and

WHEREAS, only 3% of all newly constructed housing in California is built for sale, while states like Hawaii and Washington produce condominiums at roughly ten times California's annual rate; and

WHEREAS, existing California law limits the liquidated damages (buyer deposits) cap for new condominium housing developments to three percent of the expected final purchase price — a cap that has not been updated in nearly three decades and has contributed to increased risk for builders and lenders, constraining financing and raising costs for new housing projects; and

WHEREAS, Assembly Bill 1406 (Ward) would raise the current liquidated damages (buyer deposits) cap from three percent to six percent of the expected final purchase price in new condominium developments, reducing financial risk to lenders and investors, thereby lowering construction financing costs and encouraging more housing production and affordability; and

WHEREAS, by modernizing outdated caps and supporting more predictable and less risky financing environments for housing developers, AB 1406 would help facilitate the delivery of more affordable homes and increase opportunities for Angelenos to pursue homeownership; and

WHEREAS, the City of Los Angeles is committed to addressing housing affordability through policy initiatives aimed at reducing costs, increasing stability and economic security for all residents, with a central strategy of strategically expanding equitable homeownership opportunities for individuals and families across all income levels who have historically faced systemic barriers to building generational wealth through real estate, recognizing that a robust and inclusive housing market is essential for the sustained vitality and equity of its diverse communities;

NOW, THEREFORE, BE IT RESOLVED, that by the adoption of this Resolution, the City of Los Angeles hereby includes in its 2025-2026 State Legislative Program SUPPORT of AB 1406 (Ward) which would raise the current liquidated damages (buyers deposit) cap to six percent of the expected final purchase price in new condominium housing developments, and expand new homeownership opportunities for Angelenos.
