HOUSING AND HOMELESSNESS COMMITTEE REPORT relative to establishing a process to assess and report on trends related to the concentration of ownership and corporatization of the City's housing stock that may negatively impact renters, limit small landlord ownership opportunities, and limit first-time homebuyer opportunities.

Recommendation for Council action:

INSTRUCT the Los Angeles Housing Department (LAHD) to establish an ongoing process to assess and regularly report to Council on trends related to size of ownership inventories, ownership organizational entity structures, and owner business models or behaviors that may negatively impact renters, limit small landlord ownership opportunities, and limit first-time homebuyer opportunities; and, INSTRUCT the LAHD to report to Council on the following options contained in the LAHD report dated October 3, 2025, attached to Council file No. 23-0840, to expand the foundational analysis of the report:

- a. OPTION 1 - Explore the Potential Link between Rapid Ownership Growth, Owner Behavior, and Renter Displacement Risk: Identify the number of owners with rapidly increasing inventories beyond the largest included in this report and analyze the extent to which their administrative records demonstrate an increased risk of renter displacement under their ownership. LAHD data to be examined include, but are not limited to Rent Stabilization Ordinance (RSO) complaints, Tenant Anti-Harassment Ordinance (TAHO) complaints, code complaints, eviction filings, and tenant buy-out agreements.
- b. OPTION 2 - Property Flipping: Identify the number of actors in the City whose primary business model is property flipping. Examine the most common renovations associated with flipping, how soon after purchase do the new owners typically flip the property, how much the flipped sales price increases over the acquisition price, whether existing tenants are likely to be permanently displaced by renovations, and in which neighborhoods are most impacted by property flipping. Data to be examined include First American sales data and Los Angeles Department of Building and Safety (LADBS) permit data.
- c. OPTION 3 - Acquisition of Properties from Distressed Small Landlords and Homeowners: Analyze the extent to which

distressed small landlords and homeowners who fall behind on their mortgage payments lose their properties to larger actors acquiring via short-sales or foreclosure. Data to be analyzed include but are not limited to the City's Foreclosure Registry Program, and First American sales and foreclosure data.

- d. **OPTION 4 - Use of Organizational Entities by Small Landlords:**  
To better understand the extent to which organizational entity ownership is associated with portfolio size, analyze the extent to which small landlords create organizational entities, such as limited liability companies (LLCs) and trusts to hold their properties (typically done via Quitclaim Deed transfers). Data to be examined includes First American's non-sale transfer data.
- e. **OPTION 5 - Better Distinguish a Small Landlord from a "Large" Landlord:** Before determining whether an owner is a "small" owner, expand the assessment of the size of a property owner's inventory to include all of Los Angeles County, not just the City. A countywide understanding of an owner's portfolio size will give the City a better understanding of ownership size and how they are changing. The distribution of housing ownership can then be analyzed to identify the percentages of ownership at different threshold levels, for example, how many landlords own 10 or fewer units, 5 or fewer units, 2 or fewer units. Data to be examined includes Rent Stabilization Ordinance (RSO) and Just Cause Ordinance (JCO) Registration Data, and Los Angeles County Assessor Data.

Fiscal Impact Statement: The LAHD reports that there is no impact to the General Fund.

## SUBSTITUTE No. 23

### RESOLUTION

WHEREAS, any official position of the City of Los Angeles with respect to legislation, rules, regulations or policies proposed to or pending before a local, state or federal governmental body or agency must have first been adopted in the form of a Resolution by the City Council; and

WHEREAS, the City of Los Angeles recognizes the importance of public trust, transparency, and accountability in law enforcement; and

WHEREAS, Assembly Bill 1537 (Bryan) would prohibit peace officers from being employed by, serving as an independent contractor for, or volunteering with the United States Department of Homeland Security (DHS) or its contractors or any other entity that assists with or engages in immigration enforcement, enhancing clarity around permissible secondary employment for peace officers and reducing potential conflicts of duty; and

WHEREAS, Assembly Bill 1537 would make failure to comply with that prohibition, for certain purposes, an act of dishonesty and grounds for decertification as a peace officer, thereby aligning secondary employment rules with existing standards for peace officer conduct and certification; and

WHEREAS, AB 1537 would require a peace officer to report to their employing law enforcement agency any secondary employment relating to immigration enforcement, advancing internal accountability and ensuring employing agencies have knowledge of all such engagements; and

WHEREAS, the bill would explicitly state that records related to secondary employment of peace officers are public records for purposes of the California Public Records Act, strengthening transparency by making these disclosures accessible to the public; and

WHEREAS, the City of Los Angeles routinely considers the impacts of state legislation on municipal authority, public safety, civil rights, and community relationships with law enforcement agencies, and supports legislative steps that improve clarity, public oversight, and accountability in peace officer employment practices;

PUBLIC WORKS

Richard G. Polanco, former Senate Majority Leader and Chairman of the California Latino Legislative Caucus, has often been quoted as saying the "*Latino Agenda is an American Agenda: good jobs, decent housing, safe neighborhoods, access to health care, and equal opportunity in education.*" He served in the California legislature from 1986 to 2002, including as State Senate Majority Leader (1998–2002). As chair of the Latino Legislative Caucus (1990–2000), he helped increase the number of Democratic Latino legislators statewide from 7 to 24 and aided in electing the first Latino Speaker of the Assembly.

Prior to being elected, Richard Polanco was instrumental in founding Arroyo Vista Family Health Center and Las Mujeres Recovery Home. He secured funding for lights at Garfield High School's football field and helped create and facilitate an agreement between LA County Parks and Recreation and the LA Unified School District.

He began his career as a youth counselor at Casa Maravilla Youth Center and community organizer with TELACU. He went on to serve as Executive Director of the Maravilla Project Area Committee, Assistant Deputy to Los Angeles County Supervisor Ed Edelman, Special Assistant to Governor Jerry Brown, and Chief of Staff for Assembly Member Richard Alatorre.

Richard Polanco is known for advocating for disenfranchised people in California. He helped pass the California Voting Rights Act, promoted healthcare legislation for people affected by HIV/ AIDS, and secured \$10 million in funding to assist over 500,000 immigrants in becoming citizens. Polanco passed legislation to support small businesses through the COIN program, California Arts License Plates to fund nonprofits, and California Breast Cancer to support victims, and established the Cesar Chavez Holiday of Community Service to honor his legacy.

Richard G. Polanco has consistently worked to preserve landmarks and increase green spaces, securing funding for sites such as the Cornfield, LA River Center, and Van De Camp Bakery. He also passed over 250 bills signed into law under three Governors.

The California Latino Legislative Caucus established the Richard G. Polanco Fellow Program, offering Latino college graduates a year-long stipend to work with state legislators in Sacramento. The Chrysler & Latino Caucus Academy trains new local officials on how to govern, while the Madrina's and Padrino's Leadership Program supports young professionals and encourages public policy advocacy. Richard Polanco served as Chairman and CEO of the California Legislative Caucus Institute for Public Policy, a nonprofit focused on education and leadership in public policy.

Richard G. Polanco continues his commitment to community service by serving as Chair of Plaza Community Services, Advisor to the UCLA Latino Institute for Politics and Policy, and Vice Chair of Woodcraft Rangers, where he supports extended after-school learning programs. He is married to Olivia Pena Polanco and has resided in Mt. Washington for over 25 years.

**I THEREFORE MOVE** that the City Council INSTRUCT the Department of Transportation to fabricate and install a permanent ceremonial sign designating the intersection of Avenue 26 and N. San Fernando Rd by the LA River Center as "Senator Richard Polanco Square."

**I FURTHER MOVE** that the City Council AUTHORIZE the Department of Transportation to make technical corrections or clarifications to effectuate the intent of this motion.

MOTION

On March 8, 2026, a street takeover at the intersection of Figueroa Street and 12th Street in Downtown Los Angeles drew a large crowd into the public right-of-way and disrupted traffic activity late into the night. Street takeovers, gatherings where drivers perform vehicle stunts in public intersections, can block roadways and create unsafe conditions for pedestrians, residents, and emergency responders who rely on clear streets to move safely through the neighborhood.

Downtown Los Angeles is home to more than 90,000 residents. For the people who live here, incidents like street takeovers undermine the safety, stability, and quality of life that every neighborhood deserves.

Notably, this intersection has already been identified by the Los Angeles Police Department as one of the 50 locations citywide for street racing activity, as noted by the Los Angeles Department of Transportation in their October 29, 2025 report (C.F. 22-1019). This highlights the need for proactive strategies to deter street takeovers and maintain the safety and accessibility of Downtown streets for everyone who relies on them.

I THEREFORE MOVE that the City Council instruct the Los Angeles Department of Transportation, in partnership with Council District 14, to identify the appropriate mechanisms for traffic control that can be implemented to deter street takeovers in Downtown Los Angeles (DTLA), including but not limited to quick-build solutions and other recommendations the LADOT has in their toolbox to deter street takeovers.

I FURTHER MOVE that the City Council instruct the Los Angeles Department of Transportation, in coordination with relevant City departments and in partnership with Council District 14, to report with a list of locations where proactive and reactive prevention and enforcement strategies may be implemented.

## MOTION

The current financial market environment continues to present significant challenges for development, including elevated interest rates, challenging debt markets, tariff uncertainty, rapidly escalating material costs, and immigration initiatives impacting the labor force. These forces materially impact project feasibility and require additional time for developers to structure viable capital stacks and secure financing commitments.

Construction costs remain volatile and continue to escalate due to global supply chain pressures and tariffs on key building materials, requiring developers to reprice projects and adjust budgets during the pre-development and plan check process which requires additional time to raise capital.

Banks and financial institutions typically require approved drawings before issuing final loan commitments, and lenders also require a Guaranteed Maximum Price contract (GMP) from a general contractor as part of their underwriting.

In the current market environment, lenders and institutional investors are also conducting more extensive due diligence and underwriting given tariff volatility and regulatory uncertainty. As a result of these challenges, the financing process may require several additional months after the Plan Approval to complete underwriting and close construction financing in order to break ground on a project.

Affordable housing is a critical need in the City but development of affordable and supportive housing is difficult to build. A complicated financing structure involving multiple funding sources and funders, including low-income housing tax credit program, soft loans from the State, County and City, as well as traditional banks make the timing of when an affordable housing project can actually start construction difficult to predict and manage.

Many developers who submitted for Plan Check in the past three years have not been able to start construction when anticipated due to these factors. Therefore, in light of these barriers to the construction of housing, it makes sense to make the necessary amendments to the Municipal Code to extend the existing Plan Check review process as codified in Municipal Code Section 98.0603 (*Expiration of Plan Check*) for permit applicants.

**I THEREFORE MOVE** that the Council instruct the Department of Building and Safety, in consultation with the City Attorney, to prepare and present a proposed ordinance, to amend Municipal Code Section 98.0603 (*Expiration of Plan Check*) to extend the Plan Check expiration beyond the 18 month-time period that is currently allowed, and thereby allow project applicants more time to secure a permit.

**I FURTHER MOVE** that the Council instruct the Department of Building and Safety to revise existing policy to extend Plan Check to allow more time for project applicants to complete the Plan Check process and obtain permits while complying with the building codes in effect at the time of original submittal.
