CIVIL RIGHTS, EQUITY, IMMIGRATION, AGING, AND DISABILITY REPORT relative to the resources needed, including staffing and other expenses, to comply with the Americans with Disabilities Act (ADA) regulations and requirements for large scale events, including the 2026 World Cup and the 2028 Olympic and Paralympic Games, and whether these expenses could be reimbursed by the LA2028 Agreement in response to the Fiscal Year 2025-26 Budget Recommendation.

Recommendations for Council action:

1. INSTRUCT the City Administrative Officer (CAO), in coordination with Department on Disability (DOD), to:
 - a. Identify \$66,107 for one Senior Management Analyst (with six-month authority) and \$140,000 for Contractual Services.
 - b. Report on all City costs, including DOD's accessibility services, that will be reimbursable by LA28, once the Enhanced City Resources Master Agreement has been finalized.
2. DIRECT all City departments with major events-related responsibilities to report to the Office of Major Events on how they are accounting for and integrating the costs of Americans with Disabilities Act (ADA) compliance into their work; and any resources, including staff and other expenses, that are needed to comply with ADA regulations and requirements.

Fiscal Impact Statement: The DOD reports that there will be an initial General Fund impact to providing these resources in preparation for upcoming major events, including the 2028 Olympic and Paralympic Games. DOD is exploring potential funding offsets for Games related position authorities, but does not anticipate the availability of special funds for contractual service or other costs. However, it is DOD's contention that providing funding for DOD's major events related work ultimately will decrease the City's risk of non-compliance. Doing so will save hundreds of thousands to hundreds of millions of dollars during the Games and beyond that would otherwise be expended on litigation costs, including settlements and judgments for noncompliance.

 - a. Establishing substantial fines and penalties sufficient to fully offset the City's costs derived from permitting legal signage, enforcement framework administration.
 - b. Mechanisms to maximize the City's revenue-sharing percentage from permitted advertising.
 - c. A requirement that signage on temporary construction walls comply with the City's existing sign regulations and zoning code, including applicable limitations on size and location.

HOUSING AND HOMELESSNESS and PERSONNEL AND HIRING COMMITTEES' REPORT relative to a Middle-Income Affordable Housing Pilot Program, and related matters.

Recommendation for Council action:

ADOPT the following in lieu of the recommendations listed in the October 20, 2025 Los Angeles Housing Department (LAHD) report:

1. AUTHORIZE the General Manager, LAHD, or designee, to amend the Affordable Housing Bond Policies and Procedures approved by City Council in August of 2019 to allow for the creation of a Middle-Income Pilot Program to operate within the boundaries of the City of Los Angeles that could utilize partnership with a conduit issuer to issue governmental bonds for the purpose to develop, acquire,

and operate real property assets; and to impose covenants or regulatory agreements limiting the occupancy of housing units in such properties to families with incomes between 50% and 120% of the area median income for Los Angeles County, to be leased at affordable rental rates to such families with rents capped at 4 percent annually.

2. INSTRUCT the LAHD to address the following when the Bond Guidelines are amended and to submit the Conduit Issuer Bond Guidelines to the City Council for approval before any bond is issued:
 - a. To issue, the bond, the City will have no liability
 - b. That Possessory Interest tax will not ever become the responsibility of the tenant or the City but will be the responsibility of the developer should it be required.
 - c. That future potential property taxes are offset by other taxes and tenant savings
 - d. Construction completion will be protected by performance bonds, insurance and completion reserves.
3. DIRECT the LAHD to report back with the value of potential loss of tax revenue, if any.
4. INSTRUCT the LAHD to report back within 30 days on the parameters of the Los Angeles County Affordable Housing Solutions Agency social bond program and how it interrelates to the creation of a City-led Middle-Income Pilot Program.
5. INSTRUCT the LAHD to report back during the FY2026-27 Budget process on staffing needs for this pilot program.

Fiscal Impact Statement: The LAHD reports that there is no General Fund impact for the requested position, Financial Development Officer II, to develop the expertise to manage the pilot program, select partnership entities, and monitor investments. The cost of this position is \$178,538.65 to be paid from the Municipal Housing Finance Fund No. 815. These middle-income projects are exempt from property taxes and could potentially replace other developments that would contribute property tax revenue. In 2024, property tax revenue represented 34.64% of total revenue for the City's General Fund.

Recommendations for Council action:

1. ADOPT the California Environmental Quality Act (CEQA) determinations of the Board of Water and Power Commissioners that accepting an easement is exempt from CEQA pursuant to Guidelines Section 15060(c)(2) that states an activity is not subject to CEQA if the activity will not result in a direct or reasonably foreseeable indirect physical change in the environment.
2. EXEMPTION, ENERGY AND ENVIRONMENT COMMITTEE REPORT and ORDINANCE FIRST CONSIDERATION relative to the Large Power Transformers and Variable Shunt Reactors for Various Substations Project (Project).

Recommendations for Council action, SUBJECT TO THE APPROVAL OF THE MAYOR:

1. DETERMINE that the Project is exempt pursuant to Section 15060(c)(3) of the California Environmental Quality Act (CEQA) Guidelines. In accordance with this section, an activity is not subject to CEQA if it does not meet the definition of a project. Section 15378(b)(4) states that government fiscal activities which do not involve any commitment to any specific project which may result in a potentially significant physical impact on the environment do not meet the definition. Therefore, the approval of this draft ordinance to authorize procurement of power transformers, spare parts, and commissioning services is not subject to CEQA.

2. APPROVE the Department of Water and Power (DWP) proposed Resolution for the Large Power Transformers and Variable Shunt Reactors for Various Substations Project:
 - a. Authorizing the DWP to use a competitive sealed bid proposal method in accordance with Charter Section 371(a) and Los Angeles Administrative Code (LAAC) Section 10.15(f), permitting negotiations after proposals are submitted to allow clarifications and changes to the proposal.
 - b. Award in whole or in part, one or more contracts at an estimated cost of \$732 million and a term not-to-exceed nine years, to procure large power transformers and variable shunt reactors for various substations, including spare parts and associated manufacturer representative services.
3. PRESENT and ADOPT the accompanying ORDINANCE dated February 24, 2026, authorizing the Board of Water and Power Commissioners to award one or more agreements pursuant to a competitive sealed proposal method and to permit negotiations relating to the procurement of highly specialized power system equipment.

The proposed Resolution and Ordinance authorizes the use of the competitive sealed proposal method under LAAC Section 10.15(f) to procure Large Power Transformers, Variable Shunt Reactors, spare parts, and associated manufacturer representative services. The Resolution and Ordinance covers only administrative costs and excludes any contract expenditures. The ensuing contract(s) is funded through a power reliability surcharge passed on to DWP customers for a total estimated cost of approximately \$732 million. Angel City Press (ACP) was co-founded by Scott McAuley and Paddy Calistro in 1992 as a publisher of high-quality nonfiction books. Over its history, ACP has engaged more than 100 Southern California authors and produced more than 135 non-fiction books focused on the art, architecture, history, and personalities of Los Angeles and Southern California. To ensure the continued telling of essential Los Angeles stories, Mr. McAuley and Ms. Calistro chose to donate Angel City Press to the Los Angeles Public Library upon their retirement. On December 13, 2023, the Board of Library Commissioners approved the gift agreement for the management and operation of Angel City Press at the Los Angeles Public Library. In recent years, Angel City Press has published an average of seven books each year.

Los Angeles Administrative Code (LAAC) Section 10.5, which pertains to City contracting authority, states "except as otherwise provided in the Charter or this Code, no board, officer or employee of the City shall make any contract, obligating the City, or any department of the City, to make or receive payments of money or other valuable consideration for a period longer than three years, unless such contract shall have been first approved by the Council." In addition, LAAC Section 10.5 (a) outlines specific exceptions to this requirement. Consequently, publishing agreements between authors and Angel City Press at the Los Angeles Public Library require City Council approval, as their terms exceed the three-year limit allowed by the code. The City Council retains the authority to amend LAAC Section 10.5, when necessary, to outline the specific instances requiring Council approval.

I THEREFORE MOVE that the City Council request the City Attorney, with the assistance from the Library Department, to prepare and present an Ordinance that would amend Los Angeles Administrative Code Section 10.5 (a) to add Library publishing agreements to the list of specific exceptions from this Section, for a term not to exceed the term of copyright and any extensions and renewals thereof.

The Port of Los Angeles stands as one of the busiest container ports in the Western Hemisphere and serves as a critical gateway for regional, national, and global trade. Handling millions of containers each year, it plays a central role in the United States supply chain while generating substantial economic activity and supporting thousands of jobs across Southern California and beyond.

At the same time, the Port is directly adjacent to the communities of San Pedro and Wilmington, where residents experience the daily impacts of port-related truck traffic, emissions, and congestion. Periods of increased empty container returns often lead to concentrated truck volumes along key access routes, particularly John S. Gibson Boulevard and nearby Port corridors. These surges place strain on local infrastructure, worsen air quality, and create serious public safety concerns when emergency access routes are obstructed. As cargo volumes shift and terminal activity intensifies, roadway design, traffic management strategies, and terminal scheduling practices must evolve to support efficient goods movement while minimizing impacts on surrounding neighborhoods.

I THEREFORE MOVE that the City Council direct the Los Angeles Department of Transportation, in coordination with Caltrans and the Port of Los Angeles, to evaluate and develop a re-striping and traffic reconfiguration plan within 90 days for John S. Gibson Boulevard and other relevant public rights-of-way serving Port terminals. This evaluation should also examine internal circulation improvements within terminal facilities, including the West Basin Container Terminal, to identify feasible changes to queuing, staging, and lane configurations. The plan should recognize the goal to increase operational capacity for trucks returning empty containers, reduce spillover onto public roadways, and maintain emergency access and traffic safety standards.

I FURTHER MOVE that the City Council request the Port of Los Angeles to work with shipping lines and terminal operators to assess scheduling practices that contribute to concentrated empty container return surges. The Port should report back with recommendations for coordinated appointment systems, vessel discharge scheduling adjustments, and other operational strategies aimed at distributing truck volumes more evenly throughout operating hours. This report should also include implementation timelines, jurisdictional considerations, funding requirements, and any necessary agreements among the City, State, terminal operators, and private stakeholders needed to carry out these improvements.

Through a collaboration with the Office of Community Beautification (OCB), Council District 1 and community partner Center for Employment Opportunities, Inc. ("CEO"), on December 23, 2025, Council District 1 submitted two applications for the Community Cleanup and Employment Pathway (CCEP) Grant Program to the California Department of Transportation. The CCEP program was established to beautify California's transportation network through art and litter clean-up projects in underserved, rural and urban communities throughout the state while creating career opportunities and jobs for veterans, students, artists, people experiencing homelessness, and those re-entering society from incarceration.

On February 20, 2026, Council District 1 was notified that both proposals had been selected by the State. Council District 1 will receive the following funding to establish clean teams in the respective areas:

- \$256,152 - Council District 1 – Chinatown
- \$274,155 - Council District 1 – Pico Union / Downtown

Council District 1 will expend no less than 50 percent of program funds by December 1, 2026 and 100 percent of program funds by no later than November 1, 2027. The OCB is anticipating receiving the State funds soon and will need authority to accept and deposit the grant prior to programming the funds.

I THEREFORE MOVE that the City Council INSTRUCT the Office of Community Beautification (OCB) to execute any necessary documents to accept the Community Cleanup and Employment Pathway (CCEP) grant on behalf of Council District 1 to be the designated grant administrator for the CCEP.

I FURTHER MOVE the Council AUTHORIZE OCB to contract with Center for Employment Opportunities (CEO) to satisfy the requirements of the grant.

I FURTHER MOVE that the Council request the Controller to establish a new Special Fund entitled "Community Cleanup and Employment Pathway - Council District 1" within Department 10, to receive and disburse the CCEP Funds.
