MOTION

The Los Angeles City Cannabis Regulation Commission (CRC), on November 20, 2025, approved an Annual License for Type 10 Storefront Retail Commercial Cannabis Activity for Sweetgrass Enterprises LLC (DCR Core Record No. 320051) at the Business Premises located at 2181 Venice Boulevard, in Council District 10.

The Commission's decision to approve the Annual License appears to have been made in the absence of due process and failed to consider substantial evidence of community and official opposition, including:

- The strong opposition letter submitted by Councilwoman Heather Hutt's office, which detailed concerns regarding crime, loitering, facade issues, and adjacency to a problematic liquor store and another cannabis dispensary.
- The reported 58 public comments which were allegedly not investigated by Department of Cannabis Regulation (DCR) staff in their report, nor were the associated contextual impacts deliberated upon by the Commission.
- The decision was rendered despite the applicant's absence at the hearing, the lack of a representative to advocate for the application, and a staff member's reliance on unconfirmed "belief" regarding developer-community engagement.

Los Angeles City Charter Section 245 grants the City Council authority to assert jurisdiction over actions of various City Boards and Commissions, including the Cannabis Regulation Commission, by a two-thirds vote; and

The Commission's failure to thoroughly investigate and deliberate upon the legitimate community concerns and contextual factors suggests an error in due diligence that is detrimental to the public interest of the Tenth Council District.

I THEREFORE MOVE that, pursuant to Section 245 of the Los Angeles City Charter, the City Council assert jurisdiction over the November 20, 2025 action of the Cannabis Regulation Commission in approving a Commercial Cannabis Activity Annual License (DCR Core Record No. 320051) for Sweetgrass Enterprises LLC at the Business Premises located at 2181 Venice Boulevard.

I FURTHER MOVE that upon the City Council's assertion of jurisdiction, the Council **VETO** the Cannabis Regulation Commission's decision to approve the Commercial Cannabis Activity Annual License (DCR Core Record No. 320051) for Sweetgrass Enterprises LLC at the Business Premises located at 2181 Venice Boulevard.

In recent years, Los Angeles has experienced multiple disasters, including wildfires such as the 2017 La Tuna Canyon and Creek Fires, the Northridge Earthquake of 1994, and the 2025 Palisades, Hurst, Archer, Kenneth and Sunset Fires, which have caused significant damage to homes and property. Following the 2017 La Tuna Canyon and Creek Fires, affected residents were not granted waivers of building, plan-check, and related fees, creating financial hardship for disaster survivors.

Currently, the City is considering waiving certain fees for the January 2025 Wildfires rebuilding projects, highlighting the need for a consistent, equitable, and transparent City-wide policy to guide disaster recovery fee waivers and ensure all residents impacted by these emergencies are treated fairly.

A permanent policy would provide clear guidance to departments, legal safeguards for the City, and mechanisms to coordinate with federal and state disaster recovery funding, while ensuring fiscal responsibility and equity across all districts.

I THEREFORE MOVE that the City Council INSTRUCT the City Administrative Officer (CAO) and the Chief Legislative Analyst (CLA), with the assistance of the City Attorney and all relevant departments, to develop and report back on a permanent City policy for fee waivers for disaster-impacted residents, including those affected by wildfires, floods, earthquakes, and other declared emergencies. The report should include the following:

- Identify eligible fee types, including building, plan-check, development impact, and related fees, and define eligibility criteria for affected property owners;
- Include considerations to differentiate benefits based on whether property owners are insured, underinsured, or uninsured;
- Establish safeguards, such as fee caps or project scope limitations, to prevent unintended fiscal impact on other residents or departments; and
- Provide mechanisms to coordinate with FEMA, Cal OES, or other funding sources to recover waived fees where possible, and identify contingency funding sources if reimbursement is unavailable.

I FURTHER MOVE that the City Attorney report back to Council with a draft ordinance implementing this permanent disaster fee policy.

Proposition HHH (Prop HHH) was passed by City voters on November 8, 2016. Prop HHH provides the City with authority to issue up to \$1.2 billion in general obligation (GO) bonds to finance the development of affordable housing for the homeless and those in danger of becoming homeless, and provide facilities to increase access to mental health care, drug and alcohol treatment, and other services (Prop HHH projects).

The City Administrative Officer is preparing to issue the Proposition HHH General Obligation Bonds, Series 2026-A (Taxable) (Social Bonds) (the Bonds) in the amount of \$86.015 million, which is the remaining balance of the total \$1.2 billion Prop HHH authority. The Bonds are expected to be issued by late January 2026. The Los Angeles Housing Department (LAHD) projects that funds will be needed on an interim basis prior to the new bond issuance date to avoid delays in the delivery of Prop HHH projects.

The LAHD has identified \$20 million in available funds in the Housing Impact Trust Fund (Linkage Fee Fund) that could be temporarily loaned for this purpose. Upon the issuance of the Bonds, the Linkage Fee Fund dollars used will be immediately repaid, with interest, from the Bond proceeds.

I THEREFORE MOVE that the City Council, subject to approval of the Mayor:

1. Authorize a temporary loan in an amount up to \$20 million from the Housing Impact Trust Fund (59T) to be used for Prop HHH projects to be repaid with interest upon the issuance of the City's Proposition HHH General Obligation Bonds, Series 2026-A (Taxable) (Social Bonds);
2. Appropriate up to \$150,000 from available balances within the Proposition HHH General Obligation Bonds, Series 2026-A (Taxable) (Social Bonds) Construction Fund No. TBD, to a new account titled "Loan Interest";
3. Authorize the City Administrative Officer (CAO) to repay the \$20 million loan to the Housing Impact Trust Fund with interest upon receipt of bond proceeds from the issuance of the City's Proposition HHH General Obligation Bonds, Series 2026-A (Taxable) (Social Bonds);
4. Authorize the General Manager of LAHD or designee to prepare Controller instructions or make necessary technical adjustments, subject to the approval of the CAO, to implement the intent of this motion, and request the Controller to implement those instructions.

In March 2024, the California Public Utilities Commission (CPUC) authorized Waymo LLC to provide driverless car service in select areas of Los Angeles, marking the first large-scale introduction of autonomous vehicles (AVs) on local streets. By November 2024, the Waymo One ride-hailing app was widely available to Angelenos, and today, an estimated 600 AVs operate across Los Angeles. As of November 12, 2025, Waymo vehicles can travel on freeways for public riders in Los Angeles, San Francisco, and Phoenix. The rapid expansion of AVs on City streets and freeways represents a profound shift in the urban mobility landscape.

Under current State law, the California Department of Motor Vehicles (DMV) and CPUC hold dual permitting authority over AVs. As noted by the Chief Legislative Analyst in its April 24, 2024 report (C.F. 23-1177), local jurisdictions have no authority to approve, condition, or regulate AV operations. This lack of local regulatory authority limits the City's ability to enforce traffic safety measures, implement geofencing during road closures or special events, and require compliance with local public safety protocols. Strong cooperation from AV operators and accurate, timely data on their vehicle operations is therefore essential to maintain public safety and ensure emerging technologies align with City priorities to protect our streets, workers, and residents.

Moreover, despite early assurances of partnership and commitments to local hire and workforce investment by some AV companies, such efforts have fallen short of expectations. These shortcomings, coupled with the City's limited regulatory authority, raise serious concerns about safety, accountability, and community benefits of AV services.

These issues are particularly urgent as Los Angeles prepares to host global events, including the 2026 FIFA World Cup, Super Bowl LXI in 2027, and the 2028 Olympic and Paralympic Games, where reliable and safe mobility systems will be critical.

I THEREFORE MOVE that the City Council instruct the Los Angeles Fire Department and Los Angeles Police Department, with the assistance of the Los Angeles Department of Transportation (LADOT), to report on the number and nature of all incidents involving Waymo and other autonomous vehicle (AV) operators since January 2024, particularly in situations where AVs have ignored yellow emergency tape and warning signs, blocked firehouse driveways, sat motionless on one-way streets, enter active emergency scenes, or fail to obey directions from LADOT Traffic Officers.

I FURTHER MOVE that the City Council instruct LADOT to report on the current status of the City's Mobility Data Specification tool, which allows for direct data exchange with mobility service providers, specifically how it has been, or can be, utilized to monitor AV operations, specifically information such as vehicle location, trip origin, trip destination, vehicle telemetry, speed limit compliance, vehicle type, vehicle miles traveled, and idle time, which is consistent with the city's standard mobility data specification protocol.

I FURTHER MOVE that the City Council request the Los Angeles Department of Water and Power, the Bureau of Street Lighting, and the Los Angeles World Airports (LAWA), in collaboration with LADOT, to report within 60 days on all communications with Waymo LLC and other AV operators. This report should

include information on the impact of building additional AV charging stations on the City's power grid and on airport vehicle traffic.

I FURTHER MOVE that the City Council instruct LAWA to report on any opportunities the City of Los Angeles can leverage through LAWA to receive and manage data from AVs, including but not limited to information such as vehicle location, trip origin, trip destination, vehicle telemetry, speed limit compliance, vehicle type, vehicle miles traveled, idle time, which is consistent with the city's standard mobility data specification protocol, as well as any potential impact AV operation may have on the airport's functionality.

I FURTHER MOVE that the City Council request the City Attorney, in coordination with the Chief Legislative Analyst, to report on enforcement mechanisms available to the City to ensure AV operators and manufacturers accurately report safety and traffic incidents or violations, as well as ways to enforce local hire requirements for AV operators. This report should explain LAWA's right to deny access to its facilities if Waymo LLC fails to report safety and traffic incidents or does not enforce local hire requirements.

On February 6, 2025, the Governor signed Executive Order N-18-25 ordering the State Board of Forestry and Fire Protection, in consultation with the State Fire Marshal, to create an ember-resistant zone within 0 to 5 feet of a home ("Zone 0 regulations"), consistent with Public Resources Code section 4291 and Government Code section 51182. This Executive Order also stated that the Board of Forestry and Fire Protection shall complete the formal rulemaking process by December 31, 2025.

The State Board of Forestry and Fire Protection is still deliberating these proposed rules and regulations. The City's Community Forest Advisory Committee continues to monitor the Board of Forestry and Fire Protection workshops and has expertise that is valuable in shaping the state's new regulations. The City's Community Forest Advisory Committee has also provided to the Board of Forestry and Fire Protection their input on what these recommendations should include to best encapsulate the landscape in the City and the intent of AB3074 which established the ember-resistant zone within 0 to 5 feet of a home.

With the lack of guidance from the State Board of Forestry and Fire Protection, the City is left in a precarious position as it strives to protect residents, property, and the landscape that creates the City of Los Angeles.

I THEREFORE MOVE that the Council instruct the Los Angeles Fire Department, in consultation with the City Attorney's Office, to promulgate its own Zone 0 rules based on Option #4 of the Vegetation Options for Zone 0 and Option #2 of the Tree Options for Zone 0 found in the Summary of October Draft Zone 0 Regulation Language from the October 23, 2025 Board of Forestry and Fire Protection Zone Zero Regulatory Advisory Committee.

I FURTHER MOVE that Option #4 of the Vegetation Options for Zone 0 include language that allows plants in pots and other vegetation in Zone 0 but prohibits dead or dying plants, needles, leaves, weeds, and combustible mulches.

I FURTHER MOVE that Option #2 of the Tree Options for Zone 0 include language that allows well-maintained trees in Zone 0, and that branches must be 10 feet from chimneys, and include additional exceptions for trees protected by local ordinance.

I FURTHER MOVE that the City Attorney's Office effectuate these rules by the December 31, 2025 deadline set by the Governor's Executive Order N-18-25.

On June 22, 2021, the Council conditionally approved the vacation of Banning Street, Jackson Street, and Ducommun Street from Center Street to their respective easterly terminuses (VAC-E1401334) (C.F. 18-0191). While the applicant, the Los Angeles County Metropolitan Transportation Authority (Metro), is still seeking the vacation, which will be a part of its Division 20 operations and maintenance facility, not all conditions have been satisfied and the vacation approval expired on August 28, 2025.

Additionally, Metro has reported that several of the conditions Council approved in 2021 are no longer feasible due to newly constructed train infrastructure. Vacation proceedings for this area should be re-initiated and the Bureau of Engineering should be instructed to investigate the feasibility of the vacation request and necessary conditions for the Council's review.

I THEREFORE MOVE that street vacation proceedings for Banning Street, Jackson Street, and Ducommun Street from Center Street to their respective easterly terminuses be re-initiated pursuant to California Streets and Highways Code, Division 9, Part 3, Public Streets, Highways and Service Easements Vacation Law.

I FURTHER MOVE that the Bureau of Engineering be directed to process this vacation request under Council File No. 18-0191, Engineering Work Order No. E1401334, and investigate the feasibility of this vacation request.
