The City of Los Angeles (the "City") has previously issued its Multifamily Housing Revenue Bond (Broadway Apartments) Series 2019G (the "Bond"), pursuant to Section 248, as amended, of the City Charter and Article 6.3 of Chapter 1 of Division 11 of the Los Angeles Administrative Code, as amended for the purposes of alleviating the serious shortage of decent, safe and sanitary owner-occupied and rental housing which is affordable to many persons in the City. The City issued the Bond pursuant to an Indenture of Trust dated as of June 1, 2019 (the "Indenture") between the City and U.S. Bank National Association (succeeded in interest by U.S. Bank Trust Company, National Association) as trustee. The City loaned the proceeds of the Bond to Broadway Apartments Preservation, LP (the "Borrower") to finance the acquisition, construction, rehabilitation and equipping of that 35 unit multifamily rental housing project located at 301 West 49th Street, Los Angeles, California, located in Council District 9 (the "Project"). The City is a conduit issuer and the Bond debt is payable solely from revenues or other funds provided by the Borrower. The City does not have any liability for repayment of the Bond.

The Indenture contains several rating requirements for trust certificates representing interests in the Bond and requires delivery of an "investor letter" in connection with transfer of the Bond in specified circumstances. These restrictions and requirements are in conformance with the City's Affordable Housing Bond Policies & Procedures, August 2019 (the "Policies"). The current owner of the Bond has requested a waiver of the Policies to permit a transfer of the Bond to a corporate securitization trustee. The requested waiver and subsequent Bond transfer will provide increased liquidity for the Bond and lower the overall cost of financing for the Borrower and the Project, thus furthering the provision of safe, sanitary and affordable housing to the residents of the City.

I THEREFORE MOVE that the City Council:

1. Adopt the attached Resolution waiving the City's Policies in connection with the transfer of the Bond as described in said Resolution;
2. Authorize and direct Los Angeles Housing Department ("LAHD") to work with the Office of the City Attorney in any organizational and legal matters, including amendment of the Indenture and other documents delivered in connection with the issuance of the Bond, relating to the waiver described in the Resolution; and
3. Authorize LAHD to take any other steps necessary to accomplish the aforementioned actions.

TO CITY CLERK FOR PLACEMENT ON NEXT
REGULAR COUNCIL AGENDA TO BE POSTED

#56

In accordance with State Law, the City Clerk has compiled petitions to renew the Westwood Village Improvement District (BID). The BID currently serves and will continue to serve the community by providing activities in three program areas, including: Clean and Safe; Economic Development and Marketing; and Beautification. Each of the programs is designed to meet the goals of the District which are to improve the safety of each assessed parcel within the District; increase building occupancy and lease rates; encourage new business development; and attract ancillary businesses and services for assessed parcels within the District.

The City has previously supported efforts of business improvement districts in areas where City-owned property is included in the boundaries. Given that the City owns parcels in the proposed BID renewal boundaries, the City Council should instruct the City Clerk to sign the petition for the City-owned parcels.

I THEREFORE MOVE that the City Council instruct the City Clerk, or designee, to sign the petition for the City-owned parcels included in the Westwood Village Improvement District.

I FURTHER MOVE that the City Clerk be authorized to make any changes or adjustments to the above instruction in order to effectuate the intent of this motion.

Residents of the Harbor Gateway community have raised concerns regarding safety, emergency preparedness, and environmental risks associated with operations at the JCI Jones Chemicals, Inc. (JCI) facility located at 1401 Del Amo Boulevard. JCI's products are used as disinfectants in municipal drinking and wastewater treatment. Chemicals are brought on site in bulk quantities (railcars, tank trucks, etc.), repackaged into smaller containers, and transported to customers as needed.

Constituents have contacted the Council Office seeking clarity on the City's enforcement authority, civil capacities, and ability to ensure that appropriate safety measures are implemented. At the same time, the Del Amo Action Committee (DAAC), a local environmental justice non-profit organization, has proposed an emergency response framework recommending several preparedness measures for JCI to adopt. Receiving information to better clarify what actions the City can take, what actions or plans can be required of JCI, and what mechanisms exist to ensure community protection is urgent.

I THEREFORE MOVE that the City Council direct the Office of the City Attorney, in consultation with the Emergency Management Department (EMD), the Los Angeles Fire Department (LAFD), the Department of Building & Safety (LADBS), and the Department of City Planning (DCP), to report back in 30 days on the City's criminal and/or civil enforcement capacities, as well as steps to abate any present nuisance, with respect to the JCI Jones Chemicals, Inc. (JCI) facility and their operations, including:

1. A record of any prior local, state, or federal violations of law in the JCI operations or site conditions within the past 15 years, the response to any violation notices, and the current status of any violation, nuisance, or substandard condition in the JCI operations or at the JCI site;
2. The City's authority and procedural path for criminal or civil enforcement, or nuisance abatement, regarding the operations or site conditions;
3. Existing authority and available enforcement mechanisms to require or incentivize emergency-preparedness measures in the current operations;
4. The City's authority to require facility upgrades, operational safety improvements, or use restrictions related to community safety and emergency preparedness;
5. Options for voluntary agreements or partnerships to enhance community safety; and
6. Opportunities for interagency coordination with the California Environmental Protection Agency (CalEPA), the South Coast Air Quality Management District (SCAQMD), and federal partners on oversight and compliance.

I FURTHER MOVE that these departments, in coordination with the Council Office, continue engagement with JCI to pursue community-requested safety initiatives, including: the distribution of shelter-in-place kits, community emergency-response training, installation of warning systems such as windsocks and alarms, and exploration of a vegetation wall or similar buffer improvement(s).

MOTION

In October 2025, Governor Newsom signed SB 346 (Durazo), which gives local jurisdictions in California additional tools to ensure that short-term rentals are operated in accordance with local licensing rules, and that transient occupancy taxes are properly collected. The City of Los Angeles adopted a Resolution (Blumenfield-Raman-Yaroslavsky) in support of SB 346 (CF 25-0002-S22). Local jurisdictions like the City of Los Angeles must adopt an ordinance to make the provisions of SB 346 applicable within its boundaries. This motion begins that process.

The City closely regulates short-term rentals, in large part to ensure they do not exacerbate our severe housing shortage. The Home-Sharing Ordinance allows short-term rentals only in a host's primary residence for a maximum of 120 days in a calendar year; prohibits short-term rentals in units subject to an affordability covenant or the Rent Stabilization Ordinance; and does not allow a person to operate more than one short-term rental. The City also requires hosts to pay a per-night fee and remit Transient Occupancy Tax (TOT).

Many owners and operators of short-term rental properties do so in accordance with the law, and some hosting platforms, referred to in SB 346 as short-term rental facilitators, are diligent about ensuring that properties they list are properly licensed. But because the City's rules are somewhat restrictive, there are many property owners who engage in short-term rentals despite being not authorized to do so (taking much-needed housing units off the rental market), and unscrupulous hosting platforms that will list properties regardless of whether they are licensed. The City often fails to collect TOT on unlicensed short-term rentals.

SB 346 authorizes the City to require short-term rental facilitators to report, in the form and manner we prescribe, the physical address including nine-digit zip code of each short-term rental and, if that information is not sufficient for the City to identify the short-term rental, additional information including the assessor parcel number, the URL associated with the specific short-term rental listing, and information related to the identification of an accessory dwelling unit, guest house, or single unit of a timeshare or multifamily housing project located at a single address.

SB 346 also explicitly empowers the City to adopt an ordinance authorizing the City to audit or examine the records of a hosting platform to ensure proper collection and remittance of TOT.

I THEREFORE MOVE that the Council instruct the Department of City Planning, with the assistance of the Department of Finance, to report with recommendations regarding implementation of SB 346, including but not limited to a form and manner for requiring hosting platforms to submit data to identify each short-term rental, whether the City should establish a single reporting format or allow hosting platforms to use different formats, the frequency of required reporting, or changes to existing law or procedures needed to facilitate the audit or examination of records.

BUDGET & FINANCE

MOTION

The City's Business Tax ordinance requires businesses to pay a specified amount per \$1,000 of taxable gross receipts for each tax classification. Some business taxes are based on a flat rate per tax period and others are based on the number of vehicles, machines, devices or equipment used, the number of employees, square footage of the area, seating capacity, or the scale of fees collected. On average, restaurants and other small businesses are required to pay \$1.27 per \$1,000 of gross receipts annually.

Over the years, the City has offered various incentives and exemptions to small and new businesses; however, current incentives have either expired or are long overdue for an update. Last updated in July 2006, Los Angeles Municipal Code (LAMC) Section 21.19 provides the Small Business Exemption program currently in place to exempt certain businesses from paying a gross receipts tax, applying to small businesses that do not have taxable and nontaxable gross receipts exceeding \$100,000 from within and outside of the City. Prior to its expiration in January 2016, LAMC Section 21.30 provided the New Business Exemption program which applied to brand new businesses in the City or an existing business from outside the City that relocated to the City.

To assist restaurants and small businesses with remaining economically viable, these financial incentives should be updated and new business support programs should be developed to encourage existing restaurants and small businesses to remain in the City and possibly motivate existing street vendors, food trucks, and catering businesses to open brick and mortar restaurants.

I THEREFORE MOVE that the Office of Finance, with the assistance from the CAO and CLA, report back on: (1) the feasibility and fiscal impact of raising the small business exemption threshold; and (2) the practices of other cities in regards to business tax.

MOTION

Council District 7 is home to the largest equestrian population in the City of Los Angeles, serving as a longstanding cultural and recreational cornerstone for generations of riders, trainers, and boarding facilities. In recent months, equestrian operators and community members have reported significant concerns regarding the interpretation and enforcement of Los Angeles Municipal Code (LAMC) Article 3, Section 53.15.1, which governs equine licensing, boarding permits, operations, and related activities.

These concerns include reports of delays or inconsistencies in the processing of equine permit applications, questions regarding the clarity of citations and the identification of responsible parties, and inquiries about how certain provisions of the LAMC are being interpreted or applied to routine equestrian activities. Community members have also expressed a need for clearer guidance on information requested during the licensing process and on any procedural changes that may affect enforcement or compliance expectations.

The Los Angeles Equine Advisory Committee has noted that some current enforcement practices may not fully align with the existing language of LAMC Article 3, Section 53.15.1, and that updates to terminology, databases, and procedures may be needed to better reflect modern equine operations. Operators have also expressed interest in clearer guidance on due-process pathways for addressing citations or permit-related decisions. In light of these issues, and recognizing the important role the Department of Animal Services plays in promoting safety and humane animal care, a comprehensive review would help ensure that policies and enforcement practices remain transparent, consistent, and equitable for all equestrian stakeholders.

I THEREFORE MOVE that the City Council instruct the Department of Animal Services with the assistance of the Office of the City Attorney to review LAMC Article 3, Section 53.15.1 and report on:

- the current interpretation and enforcement practices;
- any procedural or administrative changes undertaken since January 1, 2024;
- the basis for any expanded or newly-applied definitions, including “livery,” “animal acts,” and equine identification requirements;
- recommendations to establish due-process procedures for equine-related citations and permit actions; and
- steps necessary to align equine policies with consistent and equitable enforcement standards.

I FURTHER MOVE that the Department of Animal Services be directed to suspend the issuance and collection of equine-related fines, citations, and boarding permit revocations, effective January 1, 2024, until LAMC Article 3, Section 53.15.1 is fully reviewed.

I FURTHER MOVE that the Department of Animal Services be instructed to hold public hearings, in coordination with the Los Angeles Equine Advisory Committee, to provide outreach and education to equestrians and to solicit input regarding necessary regulatory clarifications or updates.
