Fiscal Impact Statement: The CAO and CLA report that there is no immediate fiscal impact to the General Fund in 2025-26 as a result of the recommendations in the report. The consolidation of the DOA, EWDD, and YDD into the CIFD, to be renamed CID, would result in the elimination of 21 positions and the addition of five new positions. This will result in an annual savings of \$3.52 million, consisting of \$0.78 million in General Fund and \$2.74 million in Special Funds. Additionally, lease and operating expense reductions will generate \$1,832,905 (\$914,281 General Fund and \$918,624 Special Fund) in savings if the CIFD, EWDD, LADOA, and YDD are consolidated and co-located at a City-owned site such as the Mangrove property. These savings may be reduced by operational and maintenance costs at a new location as well as one-time costs such as those associated with relocating employees between worksites, modifying informational technology systems, staff time to support the transition, and employee payouts. The anticipated savings and the total cost to implement the consolidation depend on the effective date of the consolidation. The 2025-26 Unappropriated Balance provides \$630,000 for the Community Investment for Families Department to enhance the efficiency of community services programs Citywide. These funds were intended for costs associated with the proposed consolidation. Other potential benefits such as reduced contract execution timelines for service providers, expedited processing and payment of invoices cannot be quantified at this time.

Financial Policies Statement: The CAO and CLA report that the recommendations in the report comply with the City's Financial Policies as they support the City's goal to achieve and maintain a structurally balanced budget in which future costs are projected to be fully paid by future revenues.

2. DESIGNATE the General Manager, Executive Officer, or Assistant General Manager, RAP, as the agent to conduct all negotiations, execute and submit all documents, including but not limited to applications, agreements, amendments, and payment requests, which may be necessary for the acceptance and use of Grant funds.

Acceptance of this Grant has no fiscal impact on the RAP's General Fund, as all funding is being provided by the County, at no cost to RAP, for the benefit of participating youth and teens from various communities throughout the City of Los Angeles.

(Budget and Finance Committee report to be submitted in Council. If a public hearing is not held in Committee, an opportunity for public comment will be provided.)

(Please visit www.lacouncilfile.com for background documents.)

Fiscal Impact Statement: The CAO reports that the recommendations stated in the November 13, 2025 CAO report, attached to the Council File, include transfers, appropriations, and authority for expenditures totaling \$7.4 million. This consists of \$2.3 million from various special funds, \$4.2 million in MICLA funds, and \$0.86 million in CTIEP funds. All transfers and appropriations are based on existing funds, reimbursements, or revenues. There is an unanticipated General Fund impact in an amount not yet determined for operations and maintenance costs of two facilities currently not in operation, Barnsdall Art Park - Residence A and Engine Company 23 Youth Arts Center. These costs will be addressed through the City budget process at the time the facilities are scheduled for completion.

Financial Policies Statement: The CAO reports that the recommendations stated in the November 13, 2025 CAO report, attached to the Council File, comply with the City's Financial Policies in that appropriations for funds are limited to available cash balances needed to fund ongoing maintenance, programming, project shortfalls, and critical operational needs in the current budget year.

Debt Impact Statement: The CAO reports that the issuance of MICLA debt is a General Fund obligation. The proposed MICLA fund appropriation for the capital project described in the November 13, 2025 CAO report, attached to the Council (Item E - ITA Server Room Upgrade Phase II) would cause the City to borrow \$1.2 million at an approximate 5.5 percent interest rate over a period of 20 years. The total estimated debt service for the MICLA-funded projects is \$2.0 million, including interest of approximately \$0.8 million. The estimated average annual debt service is \$96,000 over a period of 20 years. Actual interest rates may differ as rates are dependent on market conditions at the time of issuance. The CAO cannot fully predict what interest rates will be in the future. In accordance with the City's Debt Management Policy, the City has an established debt ceiling to guide

the evaluation of the affordability for future debt. The debt ceiling for non-voted direct debt as a percentage of General Fund revenues is six percent. The 2025-26 Adopted Budget non-voter-approved debt service ratio is 2.40 percent. The issuance of MICLA debt for these projects will not cause the City to exceed the six percent non-voter-approved debt limit.

Community Impact Statement: None submitted.

BUDGET AND FINANCE COMMITTEE REPORT, RESOLUTION, and ORDINANCE FIRST CONSIDERATION relative to the issuance and sale of Proposition HHH General Obligation (GO) Bonds, and adding a new Section to the Los Angeles Administrative Code (LAAC) for the creation of special funds.

Recommendations for Council action, SUBJECT TO THE APPROVAL OF THE MAYOR:

1. ADOPT the accompanying Authorizing RESOLUTION, attached to the City Administrative Officer (CAO) report dated December 3, 2025, attached to the Council file, providing for the issuance and sale of the GO Bonds designated as Series 2026-A (Taxable) (Social Bonds), in an aggregate amount not to exceed \$86.015 million for Proposition HHH Projects, and the execution and delivery of various documents in connection with the issuance and sale of the GO Bonds.
2. PRESENT and ADOPT the accompanying ORDINANCE, dated December 2, 2025, relative to the issuance of Proposition HHH GO Bonds, and adding a new Section 5.82.34 to Article 3.5, Chapter 5, Division 5 of the LAAC for the creation of the related special funds for the administration of the GO Bond proceeds, and for purposes of payment of principal and interest on the GO Bonds.
3. AUTHORIZE the CAO to receive and open bids on the published sale date, and to award the GO Bonds to the bidder with the lowest true interest cost on behalf of the City as described in the Authorizing Resolution and the Notice Inviting Bids for the GO Bonds.

Fiscal Impact Statement: The CAO reports that there is no fiscal impact on the General Fund from approval of the recommendations in the report. Principal and interest on the GO Bonds will be paid from ad valorem taxes levied upon all of the taxable properties within the City.

Financial Policies Statement: The CAO reports that the recommendations in the report are in compliance with the City's Financial Policies. The Debt Management Policy requires that the ratio of annual debt service payments on voter-approved and non voter-approved debt to general revenues be no more than 15 percent. After accounting for the issuance of the GO Bonds, the projected 2026-27 debt ratio is 3.85 percent, as detailed in Attachment B of the CAO report dated December 3, 2025. There is no impact to the 2025-26 debt ratio as the first debt service payment on the Bonds is expected to occur in 2026-27.

Debt Impact Statement: The CAO reports that the issuance of the GO Bonds will result in estimated average annual debt service payments of \$6.7 million over 18.5 years, until September 1, 2045. The total debt service, including total principal and interest, over the life of the GO Bonds is estimated to be approximately \$131.7 million. The actual amount of debt service will be determined at the time of issuance subject to market conditions. The principal and interest on the GO Bonds will be paid from ad valorem taxes levied upon all of the taxable properties within the City.

Community Impact Statement: None submitted

SUMMARY

At the meeting held on December 3, 2025, the HHC considered the City Attorney report and draft Ordinance, dated December 2, 2025, and CAO report and Authorizing Resolution, dated December 3, 2025, relative to the issuance and sale of the GO Bonds, designated as Series 2026-A (Taxable) (Social Bonds), in an aggregate amount not to exceed \$86.015 million for Proposition HHH Projects; and, adding a new Section 5.82.34 to the LAAC for the creation of the related special funds in the Treasury of the City of Los Angeles for the administration of the GO Bond proceeds, and for the payment of principal and interest. The GO Bonds will be sold via a competitive method of sale, and awarded to the highest ranked responsible bidder with the lowest true interest cost on behalf of the City. The City will pay the principal and interest on the GO Bonds from proceeds of ad valorem taxes levied upon all taxable properties within the City.

After an opportunity for public comment was held, the Budget and Finance Committee moved to recommend approval of the recommendations contained in said CAO report, including adoption of the draft Ordinance and Authorizing Resolution. BUDGET AND FINANCE COMMITTEE REPORT relative to the Fiscal Year (FY) 2025-26 Third Construction Projects Report.

Recommendation for Council action, SUBJECT TO THE APPROVAL OF THE MAYOR:

CONCUR with the action taken by the Government Operations (GO) Committee, as detailed in the GO Committee report dated December 2, 2025, attached to the Council file.

Fiscal Impact Statement: The City Administrative Officer (CAO) reports that the recommendations stated in the November 13, 2025 CAO report, attached to the Council file, include transfers, appropriations, and authority for expenditures totaling \$7.4 million. This consists of \$2.3 million from various special funds, \$4.2 million in Municipal Improvement Corporation of Los Angeles (MICLA) funds, and \$0.86 million in Capital and Technology Improvement Expenditure Program (CTIEP) funds. All transfers and appropriations are based on existing funds, reimbursements, or revenues. There is an unanticipated General Fund impact in an amount not yet determined for operations and maintenance costs of two facilities currently not in operation, Barnsdall Art Park - Residence A and Engine Company 23 Youth Arts Center. These costs will be addressed through the City budget process at the time the facilities are scheduled for completion.

Financial Policies Statement: The CAO reports that the recommendations stated in said report comply with the City's Financial Policies in that appropriations for funds are limited to available cash balances needed to fund ongoing maintenance, programming, project shortfalls, and critical operational needs in the current budget year.

Debt Impact Statement: The CAO reports that the issuance of MICLA debt is a General Fund obligation. The proposed MICLA fund appropriation for the capital project described in the November 13, 2025 CAO report, attached to the Council file, (Item E - ITA Server Room Upgrade Phase II) would cause the City to borrow \$1.2 million at an approximate 5.5 percent interest rate over a period of 20 years. The total estimated debt service for the MICLA-funded projects is \$2.0 million, including interest of approximately \$0.8 million. The estimated average annual debt service is \$96,000 over a period of 20 years. Actual interest rates may differ as rates are dependent on market conditions at the time of issuance. The CAO cannot fully predict what interest rates will be in the future. In accordance with the City's Debt Management Policy, the City has an established debt ceiling to guide the evaluation of the affordability for future debt. The debt ceiling for non-voted direct debt as a percentage of General Fund revenues is six percent. The 2025-26 Adopted Budget non-voter-approved debt service ratio is 2.40 percent. The issuance of MICLA debt for these projects will not cause the City to exceed the six percent non-voter-approved debt limit.

Community Impact Statement: None submitted

In 2024, Council District 11 established a Restroom Ambassador Program at two public restrooms on Ocean Front Walk in Venice. Historically, these restrooms were prone to lodging, encampments, vandalism and other public safety issues, which deterred families, local residents and visitors from using one of Los Angeles' most magnificent parkspaces. In addition to managing restroom access, restroom ambassadors also connect homeless individuals to services and housing to prevent encampments from permanently returning to an area where they had once been commonplace. The program has resulted in a marked decrease in incidents and is in need of further funding to continue existing services while expanding its scope to additional restrooms along Ocean Front Walk.

I THEREFORE MOVE that \$600,000 in General City Purposes Fund No. 100-56, Account No. 000625 (Additional Homeless Services - CD 11) and \$300,000 in the Council District 11 portion of the Council Projects line item in the General City Purposes Fund No. 100-56, Account No. 000A28 [TOTAL: \$900,000] be transferred / appropriated to the Board of Public Works Fund No. 100-74, Account No. 003040 (Contractual Services) for continued services provided by the Coalition for Responsible Community Development for the Vibrant Venice Initiative in Council District 11, including the expansion of the Restroom Ambassador Program.

I FURTHER MOVE that the Board of Public Works, be instructed and authorized to prepare, process and execute the necessary documents with and/or payments to the Coalition for Responsible Community Development, or any other agency or organization, as appropriate, utilizing the above amount, for the above purpose, subject to the approval of the City Attorney as to form.

MOTION

For nearly three decades, the Vaughn Next Century Learning Center has stood as a national model of educational innovation and community transformation in the Northeast San Fernando Valley. Much of this success can be traced to the leadership and vision of Dr. Yvonne Chan, whose work helped reshape public education locally and statewide.

Dr. Yvonne Chan, a Milken Educator (1991), national citizen activist honoree, and longtime public servant, first arrived at Vaughn Street Elementary School as principal during a period marked by low academic achievement, overcrowding, and limited resources. Under her leadership, Vaughn became the first conversion charter school in California, demonstrating what is possible when families, educators, and communities are empowered to lead. Fluent in English, Chinese, and Spanish, Dr. Chan mobilized parents to rebuild the campus; launched nutrition, health, and safety programs; established a family center and community hub offering vaccinations, child care, legal aid, and job training; and led efforts to improve neighborhood conditions in response to drug activity and violence.

Dr. Chan's work transformed not only a single school but an entire community's understanding of what public education could be. Her leadership brought together families, educators, and local partners to create a model that continues to inspire schools across Los Angeles. By elevating student achievement, expanding access to family services, and fostering a sense of collective purpose, Dr. Chan helped ensure that countless children in the Northeast San Fernando Valley had pathways to opportunity that might not have existed otherwise. Her legacy remains embedded in the lives of the students she served and in the city's ongoing commitment to educational innovation.

We are honored to celebrate Dr. Yvonne Chan's remarkable contributions by naming this location in recognition of the work she began here and the many lives she has touched throughout the Northeast San Fernando Valley.

I THEREFORE MOVE that the intersection at Van Nuys Boulevard and Herrick Avenue be named "Dr. Yvonne Chan Square" and that the Department of Transportation be directed to install permanent ceremonial signage at this location.

For nearly 30 years, the Vaughn Next Century Learning Center has served as a national example of community-led educational transformation in the Northeast San Fernando Valley. At the heart of this work was Anita Zepeda, whose career and leadership helped guide Vaughn's expansion into a multi-site, cradle-to-career institution serving thousands of students.

Anita Zepeda began her career 35 years ago as a classroom teacher and went on to serve in numerous instructional and administrative roles, including reading specialist, special education advisor, bilingual program coordinator, and later, Executive Director of Vaughn Next Century Learning Center. Her work helped shape the school's instructional programs, strengthen student services, and support the development of a Pre-K through high school system recognized statewide. A dedicated bilingual educator and advocate for underserved youth, Mrs. Zepeda is remembered for her unwavering commitment to ensuring that every student felt dignity, belonging, and opportunity. She also holds a special place in the community as a beloved teacher in Council District 7, including as Councilwoman Monica Rodriguez's third-grade teacher.

Mrs. Zepeda's dedication to students and families helped shape the culture, spirit, and success of Vaughn Next Century Learning Center for more than three decades. Her work as an educator and administrator strengthened instructional programs, expanded services for diverse learners, and contributed to the school's evolution into a nationally recognized institution. Through her belief in the potential of every child and her unwavering commitment to equity, she left an immeasurable imprint on generations of students and played a key role in the long-term stability and growth of the school. Her influence continues to guide the community she served so faithfully.

We are honored to celebrate Anita Zepeda's remarkable contributions by naming this location in recognition of the work she began here and the generations of students and families she has supported in our community.

I THEREFORE MOVE that the intersection at Herrick Avenue and Paxton Street be named "Anita Zepeda Square" and that the Department of Transportation be directed to install permanent ceremonial signage at this location.

MOTION

The Palisades Fire caused immense destruction and resulted in an unprecedented amount of fire-related debris and other dangerous conditions that required immediate removal in order to advance recovery and rebuilding efforts. In spite of these challenges, a coordinated effort between the Army Corps, State, City Departments and Palisades residents resulted in the fastest debris removal in modern history.

As of mid-October 2025, 99.8% of all parcels (4,487 parcels in total) have been cleared of debris, leaving a small handful of properties (11 as of mid-October 2025) that have not cleared their debris. These remaining parcels, most notably the Palisades Mobile Home Park and 1601 San Onofre Drive, create risks to health, safety and the environment, in addition to preventing recovery, the return of residents as well as rebuilding for the wider Palisades community. The beginning of the rainy season adds further risk and the possibility of toxic fire debris entering our storm drains and water ways.

Following multiple notices and a public hearing process, these remaining parcels were declared a public nuisance earlier this year. The urgency of remediating any environmental, health or safety risks necessitates that the City immediately identify funding so that its departments can abate these properties.

I THEREFORE MOVE that the Council instruct the City Administrative Officer, in coordination with the Department of Building and Safety, to report back within 30 days on the estimated cost to complete debris removal on properties that were abated pursuant to LAMC 91.8907 as well as possible funding sources, including but not limited to the Repair and Demolition Fund, Citywide Nuisance Abatement Fund and the Enterprise Trust Fund, in order to front fund this work.

I FURTHER MOVE that the Council instruct LADBS and request the City Attorney's Office to evaluate all potential legal strategies, including criminal prosecution, to address all properties within the perimeter of the Palisades Fire that were abated pursuant to LAMC 91.8907 and have not completed the abatement of the documented hazardous conditions.

The City of Los Angeles is home to a significant number of sober living facilities, also known as group homes or recovery residences. These facilities provide critical housing and support for individuals in recovery and play an important role in advancing public health and equity.

At the same time, certain neighborhoods in Los Angeles have raised concerns about the overconcentration of such facilities in limited geographic areas. While research shows that well-run recovery residences typically do not harm neighborhood character when dispersed, studies and real-world experience indicate that excessive clustering can overwhelm community infrastructure and create tangible quality-of-life impacts.

For example, a 2016 Minneapolis study concluded that “group homes a block or more apart produce no negative impacts,” but cautioned that clustering them too closely together can create cumulative effects. In Newport Beach, where over 100 facilities were concentrated in a small coastal area, residents and city staff documented issues such as parking shortages, traffic congestion, noise, and a sense of institutionalization in formerly single-family neighborhoods. Larger sober living homes with 7 or more residents may also increase burdens on public services and neighborhood compatibility when clustered.

Courts and state housing agencies have consistently affirmed that local governments cannot exclude or discriminate against sober living facilities. Federal Fair Housing law requires reasonable accommodation, and California recognizes recovery residences as protected housing. However, precedent now exists for narrowly tailored regulations designed to address overconcentration without eliminating access. Notably, the City of Costa Mesa adopted a 650-foot spacing requirement for sober living homes, which was challenged in court. The Ninth Circuit upheld the ordinance, finding it a reasonable and lawful measure to balance neighborhood stability with fair housing obligations.

I THEREFORE MOVE that the City Council instruct the Department of City Planning, with the assistance of the City Attorney, to report back on legal and policy options to reduce the overconcentration of sober living facilities in residential neighborhoods, including:

- Establishing minimum spacing requirements between facilities, modeled on the Costa Mesa ordinance upheld by the courts.
- Exploring caps or dispersal requirements within community plan areas to ensure equitable distribution citywide.
- Considering thresholds based on facility size (e.g. homes with more than 6 residents) to target regulations at the uses most likely to create infrastructure burdens.

- Reviewing case studies and research to evaluate how the City can preserve the benefits of recovery housing while avoiding the drawbacks of excessive clustering.

AD HOC COMMITTEE ON THE 2028
OLYMPIC AND PARAOLYMPIC GAMES

MOTION

The 2028 Olympic and Paralympic Games (2028 Games) will bring hundreds of live sports events to venues throughout the City. Alongside the sporting events themselves, it is anticipated that there will be a wide range of cultural, entertainment, and other participation opportunities across the City (Non-Venue Activations). These activations will support increased tourism and commerce during the 2028 Games, and will include the City's Activation Zones program, fan zones by other public and private entities, and the Cultural Olympiad. In addition, other authorities such as Metro and Los Angeles World Airports (LAWA) will be involved with programs to support the visitors, tourists, and residents participating in all of these activities.

The proper planning and programming of Non-Venue Activations will require the procurement of a large number of goods and services. Likewise, Los Angeles will face increased infrastructure demands as the region prepares for the 2028 Games. Governmental entities across the region will require significant support from private contractors, which could provide a generational opportunity for local, small, and underrepresented businesses who should have a fair opportunity to bid on a range of contract opportunities to develop their operations and provide economic support for their employees.

It is imperative that the City ensure that local, small, and underrepresented businesses have fair access to bid for services at Non-Venue Activations and infrastructure improvements implemented by governmental agencies preparing for the Games. To ensure that all contracting opportunities are available to local businesses, the City should take steps now to establish processes to allow for such businesses to bid for and potentially earn contracts at these sites.

I THEREFORE MOVE that the Council instruct the Bureau of Contract Administration, the Office of the Chief Legislative Analyst, and the Chief Administrative Officer, with the assistance of the Economic and Workforce Development Department, Recreation and Parks, LAWA, and other relevant City Departments, as well as other public entities such as Metro and the County of Los Angeles, to report within 90 days with an assessment of procurement opportunities for local, small, and underrepresented businesses at Non-Venue Activations in the City, procedures currently in place to support these businesses, and recommendations to coordinate, monitor, and enhance efforts to expand contracting opportunities for these businesses.

MOTION

An application was recently submitted for a high-density multi-family project on the property currently owned by the Woodland Hills Country Club in Council District 3. The community is in a single family zoned and very high fire zone neighborhood. The proposed project takes advantage of new State laws that may have made it impossible to get detailed environmental review and consider community input. These changes, which could affect many areas in the City, have happened with little scrutiny or local awareness.

The new State laws appear to provide streamlined, ministerial approvals for the project, meaning the City would have no discretion to review the project, no authority to require CEQA and that the project would not be appealable by the community or the City. The state bill being used is AB 2011, which was amended by AB 2243 and AB 893.

AB 2011 allows high density multi-family projects ministerially along commercial corridors. The subsequent bills which amended the underlying bill were signed by the Governor in October and redefined specific terms. Among many elements that affect the City's authority to review projects, these changes include:

- Defining a commercial corridor in an overly broad way that includes Canoga Avenue along which the Woodland Hills Golf Course sits. Commercial Corridor is defined by width of street, not the zone, uses, or existing conditions.
- Removing zoning limits in Specific Plans that are over 25 years old, effectively circumventing the goals and requirements of the Mulholland Scenic Parkway Specific Plan and the Girard Tract Specific Plan.
- Creating a loophole in single family zoning by allowing that zoning to be ignored as long as parking is a principally permitted use whether a Conditional Use Permit is required or not, which applies in this case.
- Very High Fire Severity Zone limitations only apply if the site is vacant, which could raise concerns about the Palisades where many lots are currently vacant after being lost to fire in January 2025.

I THEREFORE MOVE that the Department of City Planning, with the assistance of the City Attorney, be INSTRUCTED to report within 30 days with a detailed analysis of the application of AB 2011, AB 2243 and AB 893 both to the proposed Woodland Hills Country Club project and to other parts of the city along "commercial corridors" as defined in State law.

ECONOMIC DEVELOPMENT & JOBS

Between 1945 to 2011 the state of California administered local Community Redevelopment Agencies ("CRA"), using tax increment financing. The CRAs were instructed to focus on mitigating "blight" and dominated local economic development, even establishing superseding land use and zoning. The CRAs generated both successes and controversies, and were ultimately dissolved in 2011. After dissolution the functions of the Los Angeles CRA were partially absorbed across several departments and agencies- the Economic Workforce Development Department (EWDD), the Los Angeles Cleantech Incubator, the Department of City Planning and the Los Angeles Development Fund.

With the coming reorganization of several departments including EWDD, an opportunity exists to examine the City's approach to economic development and explore structural options to effectively carry out economic development strategies and functions within the City. Economic development at a local government level should focus on: creation and retention of quality jobs; attracting and providing support for growth industries- especially for local and small business; revitalization and development of economic infrastructure; innovation; entrepreneurship; and generating income for the city. The work of such an agency should be guided by strategic planning, data collection and strong partnerships with local stakeholders and universities.

I THEREFORE MOVE to direct the Chief Legislative Analyst, in coordination with all other relevant departments, and in consultation with local stakeholders and academics with expertise, to report on economic development best practices at a local government level and recommendations on the most effective structure for the City to carry out economic development functions and strategies. The report should include:

- A survey of the economic development functions the City currently performs across departments;
 - A review of cities that successfully drive economic growth and the practices employed to obtain these results.
 - Comparisons of the organization of successful municipal economic development units, including optimal staff qualifications and training, and priority projects.
 - Case studies relevant to the City where economic development agencies substantially contributed to attracting and retaining growth industries, trained workforces in emerging fields, or revitalized business districts.
 - Recommendations about best practices for funding and planning within economic development, such as tax increment financing districts and development of strategic and /or capital plans.
 - Best practices, including structures, for supporting, retaining and further strengthening industries where cities hold a competitive advantage, such as Film/Entertainment and Tourism for Los Angeles.
- Consideration of benefits to Cities that maintain standalone film and/or tourism departments and those that incorporate those activities into economic development functions.
